Joao Pina (SA1/SA2)

News

UMD releases status (Vincenzo)

- UMD RC under verification. Emergency UMD release for torque server 2.5 is upcoming, we want to merge this update with the RC.

Updates from the product teams

- Christian: NTR
- Zdenek: NTR
- Jon: ARC 5.0 released, now in EPEL stable. No test report is available, hence not yet announced to UMD.
- Andrea: new package for DM clients (see agenda).

Actions

- IMPORTANT: CentOS7 support: Vincenzo sent emails around to contact TPs to get an update on the status of the support for EPEL7. This is very important to get the picture before next OMB.
- Vincenzo will follow up to https://wiki.egi.eu/wiki/URT:Java7 to understand which PT have still to fill the information about Java, contacting them directly → ONGOING
- Andrea: about TP UA review, this week people will be contacted to ask for reviewing.

AOB

Next meeting **11 May 2015, 15:00 CEST**
