

EGI “Client” Relationship Management Tool

Progress Report

Goncalo Borges, João Pina (LIP)

EGI TF 2012
September 2012

- **EGI-InSpire needs to manage its relationships between EGI.eu, NGIs and their potential user leads**
 - Partners and User communities are distributed
 - Start a portfolio of prospective clients and explore the opportunities
- **EGI CRM Goals**
 - Detect which projects (ESFRI, INFRA, National, others...) are out there and their contacts
 - Detect which research institutions are working in which projects, and to which researchers should NGIs and EGI talk to.
- **CRM is aimed to EGI.eu and NGI staff**

CRM Model (a reminder)

Account
A record for a “client” endpoint
(ESFRI projects, National projects, Other international projects, Research Institution)
Ex: LIFEWATCH, ANAEE, Academy of Athens

Contact
A record for a person associated under an account.
Used to record conversations.
Ex: Sheila Anderson, Lucia Banci, ...

Project
Long term work (tasks, milestones)
related to a Contact or to an Account

Activity
Short term work (calls, ToDos, events)
related to a Contact or to an Account

- **Authentication** (<http://crm.egi.eu>)
 - Via EGI SSO (but we need to know your EGI SSO in advance)
- **Authorization**
 - NILs and NGI staff can read all information, can only modify information associated to their NGI
 - EGI.eu staff can read and modify all information
- **Documentation** (<https://wiki.egi.eu/wiki/CRM>)
 - General Usability of the tool
 - Procedure for Account / Contact creation (with videos)
 - Customization (Generation of reports, filters ...) (with videos)

○ **Major Enhancements**

- Modification of Data Structures & Automation of Tasks
- New CRM Module Dashboard & New CRM Reports
- New Metrics Web Page (developed from scratch)
- Bug Fixes and other minor tasks (Google Analytics, Monitoring ...)

○ **Developments**

- Test vtiger 5.4.0

○ **Documentation**

- Updated (with several videos included)

Automation

- Workflow for the automatic update of the “Project List” (first time the account is saved or that specific account field is modified)
- Increase robustness of the workflow

○ Adapt CRM Dashboard Module

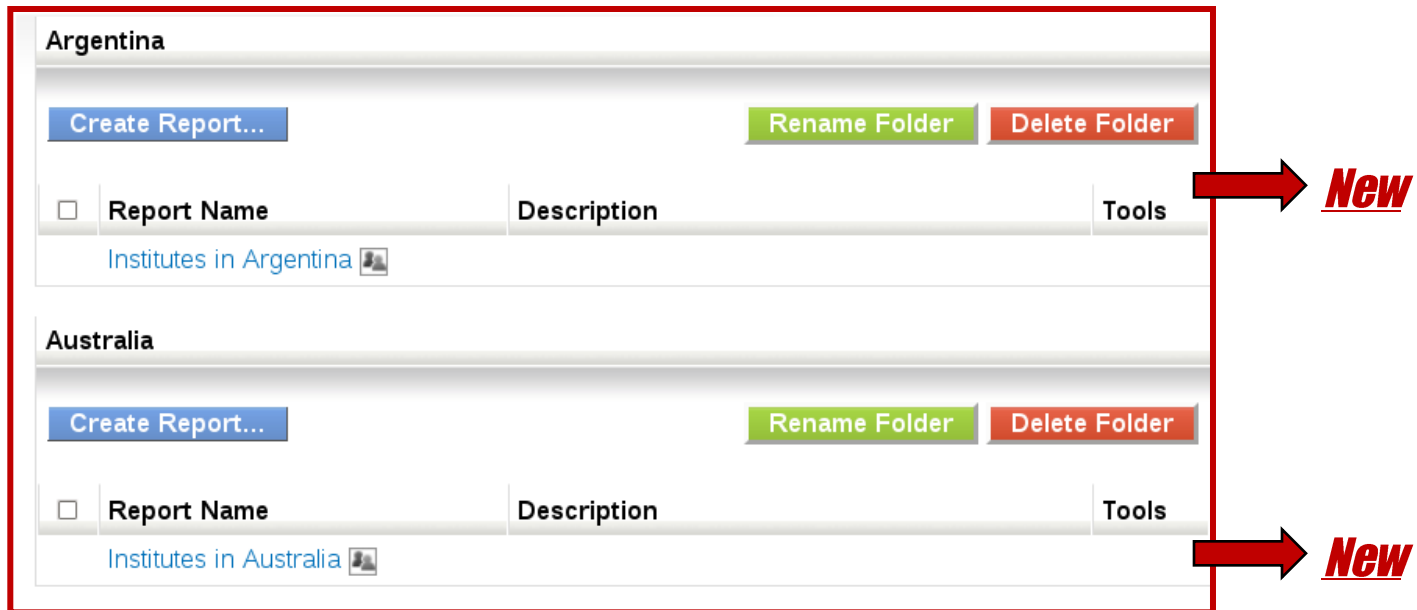

- Graph with “Accounts by Country (Top 10)”
- Graph with “Accounts by Discipline”
- There is potential for further customized graphs. Needs feedback...

New

- **Creation of folders per country (Analytics → Reports)**
 - Folders may contains customised reports generated automatically (each week, each month, each year)
 - NGI staff may create their own reports (based on the available data)
 - An initial report is created “Institutes in <Country>”

The screenshot displays the CRM Reports interface for two countries: Argentina and Australia. Each country's section includes a 'Create Report...' button, 'Rename Folder', and 'Delete Folder' buttons. Below these buttons is a table with columns for 'Report Name', 'Description', and 'Tools'. The 'Tools' column for each table is highlighted with a red arrow and the word 'New'.

Report Name	Description	Tools
Institutes in Argentina		New
Institutes in Australia		New

- **Easy mechanism to collect metrics**
 - https://crm.egi.eu/metrics_reports_index.php
 - New accounts / contact / documents in a given period per NGI
 - Modified accounts / contact / documents in a given period per NGI

- **Test new vtiger stable version 5.4.0**
 - Testing instance deployed at UPV
 - Motivation: New ModTracker tool: Keeps log history of all modified fields for accounts and contacts
 - Problem: Port all the integration work already done in 5.3.0 to 5.4.0

New

- **The tool has been enhanced since EGI CF 2012**
 - New functionalities and features in place
 - Probably many things that are still missing to be addressed in the right way

- **It is a tool for NGI staff**
 - What can we do better?
 - Does it correspond to you needs?
 - We deeply need your feedback... No point in developing a tool that is not used by anyone.
