

EGI TF12 Outline			1	2	3	4	5	6	7
Room requirements			Red	Brown	Blue	Green	Yellow		
Track			Operations	Resource Infrastructure Services	Virtualised Resources	VREs	Community and Coordination	Other meetings 1	Other meetings 2
Track Leader			Tiziana Ferarri	Peter Solagna	Michel Drescher	Gergely Sipos	Sergio Andreozzi		
Monday	17-Sep								
		9:00	Network Support/IPv6 M. Reale - involving EMI/IGE/HEPIX						
		11:00	SVG L. Cornwall						
		14:00	EGI CSIRT f2f M. Ma						
		16:00	EGI CSIRT f2f M. Ma						
Tuesday	18-Sep		Plenary						
		9:00							
		11:00	Operations of integrated infrastructures: status and perspectives (OSG, Asia Pacific, Canada, Latin America, Desktop Grids) T. Ferrari[1]	[1]	Providing Cloud Services: Cloud Platform operators talk about Cloud Service design, Customer support (account management, service desk, etc) and integration into operational infrastructure[1]	Applications & services Presentations from the community about community-specific, user-specific services and applications (e.g. BioVel Web Services) [1]	EGI Strategy and Business Model (session devoted to the presentation of the latest EGI strategy and ideas around business models; contributions in the area of cost of e-infrastructures are welcome, 100pp)[1]		EC H2020 W/S

		14:00	Prace Workshop (TBC) Convenor: T. Ferrari	Federated AAI and their integration with the EGI infrastructure, AuthN/AuthZ services		Community contributions	Sustainability of technology providers (session dedicated to the sustainability of technology providers and their products for EGI; submissions addressing strategy and business models around key actors are welcome; e.g., EMI, IGE, StratusLab; the session should envision a final panel discussion; 100ppl)		EC H2020 W/S	
		16:00	EU-DAT Workshop (TBC) T. Ferrari + EGI Security Threat Risk Assessment public report/ SPG public report L. Cornwall and D. Kelsey			User Support Platform Update on Training Marketplace, AppDB, CRM, Requirements - presentations from EGI-InSPIRE	Sustainability of national infrastructures (contributions to this session are around NGI presenting their sustainability plans; the session should envision a final panel discussion; 100ppl)			
Wednesday	19-Sep		Plenary							
		9:00								
		11:00	Workshop: Advancement of information discovery system (EGI, EMI, IGE) T. Ferrari	New middleware products, new features and training for service administrators/users (sessions of this track could be further parallelized, if needed and if the topics may be relevant to specific subsets of the	Cloud Management solutions: Technology Providers "marketing" - how their offered solutions fit the Platform Operator's needs and improve their operating costs. Technical overview	VRC & VRE workshop (invite ESFRIs too?) Presentations from the community, followed by a discussion about how to improve existing support for VRE developers (and operators?)	Marketing and Communication Strategies (Convenor: C. Gater; 30ppl)			
		14:00	OMB-led Workshop: Future maintenance and support of middleware (EGI/EMI/IGE) T. Ferrari				Experience in community building/championing (Convenor: S. Brewer)			

		16:00	Future of EGI Operations: Convenor T. Ferrari				Regional Initiatives (WS for projects working on outreaching regions outside Europe)		
Thursday	20-Sep		Plenary						
		9:00							
		11:00	Workshop: Accounting. Convenor: J. Gordon	Services for the provision of diverse resource types	Higher Level services: Which services are needed/available to efficiently use Cloud infrastructures? Services bridging the gap between pure Cloud infrastructure services and VREs, such as Brokers, Workflow services portals, etc.	Science gateways Presentations from EGI.eu and from the community, followed by a discussion about how to improve and harmonise gateway development and provisioning	Impact of e-Infrastructures: theories and practices of assessment methodologies (presentations + discussion, 50ppl)		Collab Board
		14:00	Workshop: Future advancements of tools and regionalization D. Cesini + Resource Centre Forum T. Ferrari	Training and workshops for services administrators (sessions of this track could be further parallelized, if needed and if the topics may be relevant to specific subsets of the infrastructure, e.g. tutorials about			Service Level Management (workshop organised by gSLM/FedSM people, 50 ppl)		EGI Council
		16:00	Workshop: Future advancements of tools and regionalization D. Cesini + Resource Centre Forum T. Ferrari			Community contributions			
Friday	21-Sep		Plenary						
		9:00							
		11:00	Training on testing and monitoring of sites R. Trompert/GGUS Advisory Board T. Antoni	LRMS and job scheduling services	Scientific software in the Cloud: With flexibility comes responsibility - which impact has Cloud Computing on the architecture of scientific software? Which Cloud mechanisms are available to support e.g. high-availability for scientific applications (self-serving HA, etc.)?	Workflows & workflow systems Presentations from EGI.eu and the community, followed by a discussion. Possibly an ER-Flow event.(if the project starts)	SPG Closed Meeting		EGI Council
		14:00	OTAG (30 People) D. Cesini + Security Training (60 participants) M. Ma						
		16:00	OTAG (30 people) D. Cesini + Security Training (60 participants) M. Ma				Notes: to evaluate needs for Helix-Nebula WS and EU2020 contributions		

1. please insert brief description of your intent. eg: 1 or 2 sessions containing 6 short presentation of xxxx.... or double session for workshop ... or training. Title yyy.
expected audience of 50/100 etc,
