

EGI TF12 Outline			1	2	3	4	5	6	7
Room requirements			Red	Brown	Blue	Green	Yellow		
Track			Operations	Resource Infrastructure Services	Virtualised Resources	VREs	Community and Coordination	Other meetings 1	Other meetings 2
Track Leader			Tiziana Ferarri	Peter Solagna	Michel Drescher	Gergely Sipos	Sergio Andreozzi		
Monday	17-Sep								
		9:00	Network Support/IPv6 M. Reale - involving EMI/IGE/HEPIX[1]						
		11:00	Network monitoring and troubleshooting tools (M. Reale)[2]						
		14:00	Training on testing					EGI CSIRT (CLOSED) M. Ma	
		16:00	GGUS Advisory Board					EGI CSIRT (CLOSED) M. Ma	
Tuesday	18-Sep		Plenary						
		9:00							
		11:00	Operations of integrated infrastructures: status and perspectives (OSG, Asia Pacific, Canada, Latin America, Desktop Grids) T. Ferrari[5]	[6]	Providing Cloud Services: Cloud Platform operators talk about Cloud Service design, Customer support (account management, service desk, etc) and integration into operational infrastructure[6]	Community contributions (domain specific or regional applications & services) Presentations from the community about (e.g. BioVel Web Services)	Marketing and Communication Strategies (Convener: C. Gater; 30pp)		EC H2020 W/S
		14:00	Prace Workshop (TBC) Convener: T. Ferrari[7]	Federated AAI and their integration with the EGI infrastructure, AuthN/AuthZ services		[6] Possibility: Using licensed applications on EGI (presentation about working solutions and about issues)	Experience in community building/championing (Convener: S. Brewer)		

EGI TF12 Outline			1	2	3	4	5	6	7
Room requirements			Red	Brown	Blue	Green	Yellow		
Track			Operations	Resource Infrastructure Services	Virtualised Resources	VREs	Community and Coordination	Other meetings 1	Other meetings 2
Track Leader			Tiziana Ferarri	Peter Solagna	Michel Drescher	Gergely Sipos	Sergio Andreozzi		
		16:00	EU-DAT Workshop (TBC) T. Ferrari + EGI Security Threat Risk Assessment public report/ SPG public report L. Cornwall and D. Kelsey			User Support Platform Update on Training Marketplace, AppDB, CRM, Requirements - presentations from EGI-InSPIRE	Regional Initiatives (WS for projects working on outreaching regions outside Europe)		
Wednesday	19-Sep		Plenary						
		9:00							
		11:00	Workshop on accounting (J. Gordon)[8]	New middleware products, new features and training for service administrators/users (sessions of this track could be further parallelized, if needed and if the topics may be relevant to specific subsets of the infrastructure, e.g. tutorials about different middleware stacks)	Cloud Management solutions: Technology Providers "marketing" - how their offered solutions fit the Platform Operator's needs and improve their operating costs. Technical overview on components, interfaces, and supported standards (technical and process)	AAI workshop (joint with 'Resource Infrastructure Services' track)	EGI Strategy and Business Model (session devoted to the presentation of the latest EGI strategy and ideas around business models; contributions in the area of cost of e-infrastructures are welcome, 100ppl)[6]		
		14:00	Workshop: Future advancements of tools and regionalization D. Cesini [9]				Sustainability of technology providers[10]		
		16:00	Workshop: Future advancements of tools and regionalization D. Cesini				Sustainability of national infrastructures[11]		
Thursday	20-Sep		Plenary						
		9:00							

EGI TF12 Outline			1	2	3	4	5	6	7	
Room requirements			Red	Brown	Blue	Green	Yellow			
Track			Operations	Resource Infrastructure Services	Virtualised Resources	VREs	Community and Coordination	Other meetings 1	Other meetings 2	
Track Leader			Tiziana Ferarri	Peter Solagna	Michel Drescher	Gergely Sipos	Sergio Andreozzi			
		11:00	Workshop: Advancement of infomation discovery system (EGI, EMI, IGE) T. Ferrari[12]	Services for the provision of diverse resource types	Higher Level services: Which services are needed/available to efficiently use Cloud infrastructures? Services bridging the gap between pure Cloud infrastructure services and VREs, such as Brokers, Workflow services portals, etc.	Science gateways: Presentations from EGI.eu and from the community (2 sessions), followed by a discussion (1 session) about how to improve and harmonise gateway development and provisioning	Impact of e-Infrastructures: theories and practices of assessment methodologies (presentations + discussion, 50ppl)		Collab Board	
		14:00	OMB-lead workshop: Future of EGI Operations: Convenor T. Ferrari [13]	EMI Security Training/EMI (3 hours) + Training and workshops for services administrators (sessions of this track could be further		Community contributions	Service Level Management (workshop organised by gSLM/FedSM people, 50 ppl)	Resource Centre Forum (T. Ferrari) [14]	EGI Council	
		16:00	Future of EGI Operations: Convenor T. Ferrari				Training SLM (50ppl)	Resource Centre Forum (T. Ferrari)		
Friday	21-Sep		Plenary							
		9:00								
		11:00	Security Vulnerability Group (L. Cornwall) /CLOSED	LRMS and job scheduling services	Scientific software in the Cloud: With flexibility comes responsibility - which impact has Cloud Computing on the architecture of scientific software? Which Cloud mechanisms are available to support e.g. high-	Workflows & workflow systems Presentations from EGI.eu and the community, followed by a discussion.			EGI Council	
		14:00	EGI CSIRT security Training (60 participants) M. Ma			Community contributions	SPG Closed Meeting (10ppl)[15]	OTAG (30 People) D. Cesini		
		16:00	EGI CSIRT Security Training (60 participants)M. Ma				Notes: to evaluate needs for Helix-Nebula WS and EU2020 contributions	OTAG (30 People) D. Cesini		

1. This session will deal with the latest advancements of the EGI IPv6 testbed, and followup of the collaboration with HEPIX will be discussed.
2. This session will provide an update on the recent developments of the tools for network monitoring and troubleshooting recommended by EGI.
3. This session will provide information to NGIs and site managers on how to properly test new sites
4. Meeting with the GGUS developers for the discussion of issues and requirements. This includes a presentation of the GGUS report generator.
5. EGI integrated and peer infrastructure providers will be invited to present status and future of interoperation and of their operational services.
6. please insert brief description of your intent. eg: 1 or 2 sessions containing 6 short presentation of xxxx.... or double session for workshop ... or training. Title yyy. expected audience of 50/100 etc,
7. This session will deal with the advancements in the integration of EGI and PRACE core operational services.
8. In this workshop advancements in accounting development, interoperations and requirements will be discussed
9. In this session future advancements and new requirements for the evolution of the tools will be presented discussed
10. session dedicated to the sustainability of technology providers and their products for EGI; submissions addressing strategy and business models around key actors are welcome; e.g., EMI, IGE, StratusLab; the session should envision a final panel discussion; 100ppl
11. contributions to this session are around NGI presenting their sustainability plans; the session should envision a final panel discussion; 100ppl
12. This is the third workshop on the advancement of the EGI Information discovery system: we will present the status of recent developments in the grid middleware and the operational tools, and we will discuss progress of GLUE 2 deployment.
13. This session will present contributions about future models of operations for EGI, this session will include discussions concerning the impact of software maintenance and support on EGI operations
14. This session will deal with operational issues concerning sites: resource allocation, GPGPU best practices, user operational issues concerning sites
15. Tiziana: I have moved this session to the afternoon to avoid a clash with SVG
