

## Minutes COD phone conf 05-07-2012

Present: Marcin Radecki, Malgorzata Krakowian, Luuk Uljee and Ron Trompert

### **Review of action items**

18 Certification of UA: Can be closed

12 No progress, RT will ping Emir

22 and 23 can be closed as soon as RT and LU have had a look at them and agree.

24 will become the July newsletter item

25 Certification NGI\_MD: Can be closed

### **GGUS tickets**

81278: Request for setting Globus and UNICORE tests to be an operations test

MR: This is OK for Globus. UNICORE still waits for the next release (18) of SAM nagios.

73185: Certification of NGI\_ZA

RT: Silence is a virtue

### **COD actions**

1- testing of sites: how the site status workflow should be revised to allow for site testing during the certification procedure, what should be fixed in GOCDB, requirements for SAM. Timeline: presentation at July OMB

RT will prepare a presentation and MR will give it.

2- operations portal: now ops portal uses virtual destinations to consume messages from SAM, so the ops portal should be fully synchronized with SAM. Does COD staff experience problems with the operations portal (e.g. old alarms which do not disappear when problem is fixed) either as ROD or COD? Timeline: please report back to the July OMB

RT will collect info and put it in the presentation

3- ROD training: please confirm a ROD training sessions for TF12. It will complement the site manager training that I hope we can organize and sponsor for various site managers (I will keep COD informed as soon as I know more)

RT will confirm this with Tiziana

4- missing longitude/latitude information in gstat geo view: it is optional information, but needed for a complete geo view of the EGI topology on gstat: <http://gstat.egi.eu/gstat/geo/openlayers>

Please COD open tickets to all NGIs to check this with their sites (most of medium-large NGIs have sites with missing coordinates, it is more likely that NGIs with few sites are already ok.

MK has submitted the GGUS tickets

### **Newsletter**

Topics:

- ⤴ ROD metrics (NGI\_PL))
- ⤴ Session at TF12 (RT)
- ⤴ Advertisement of talks at TF12 (MK/RT)

Deadline: July 6th

### **AOB**

Absolutely nothing
