

SARoNGS recap

Mike Jones

Connecting Infrastructure

Connecting Research

Background

SARoNGS:

Remove certificate management from the user experience when accessing (Grid) resources

- Work with existing
 - UK Grid Security Infrastructure
 - UK Federated Identities

NES

Background

- Federated Id for grid – not new:
 - 2006 @ GGF16 experts converged
 - See ~6 ideas <http://bit.ly/GGF16GridShib>
 - 2 merged to form SARoNGS
- SARoNGS provides glue between
 - The browser
 - FedID (Shibboleth)
 - GSI
 - VOMS

NES

Why Shibboleth & Federated Access

- User Friendly
 - It's in the field used by non-tech researchers
- Scalable
 - Rely upon federation members for support
- Secure
 - Opens some attack vectors but
 - Discourage other insecure activities

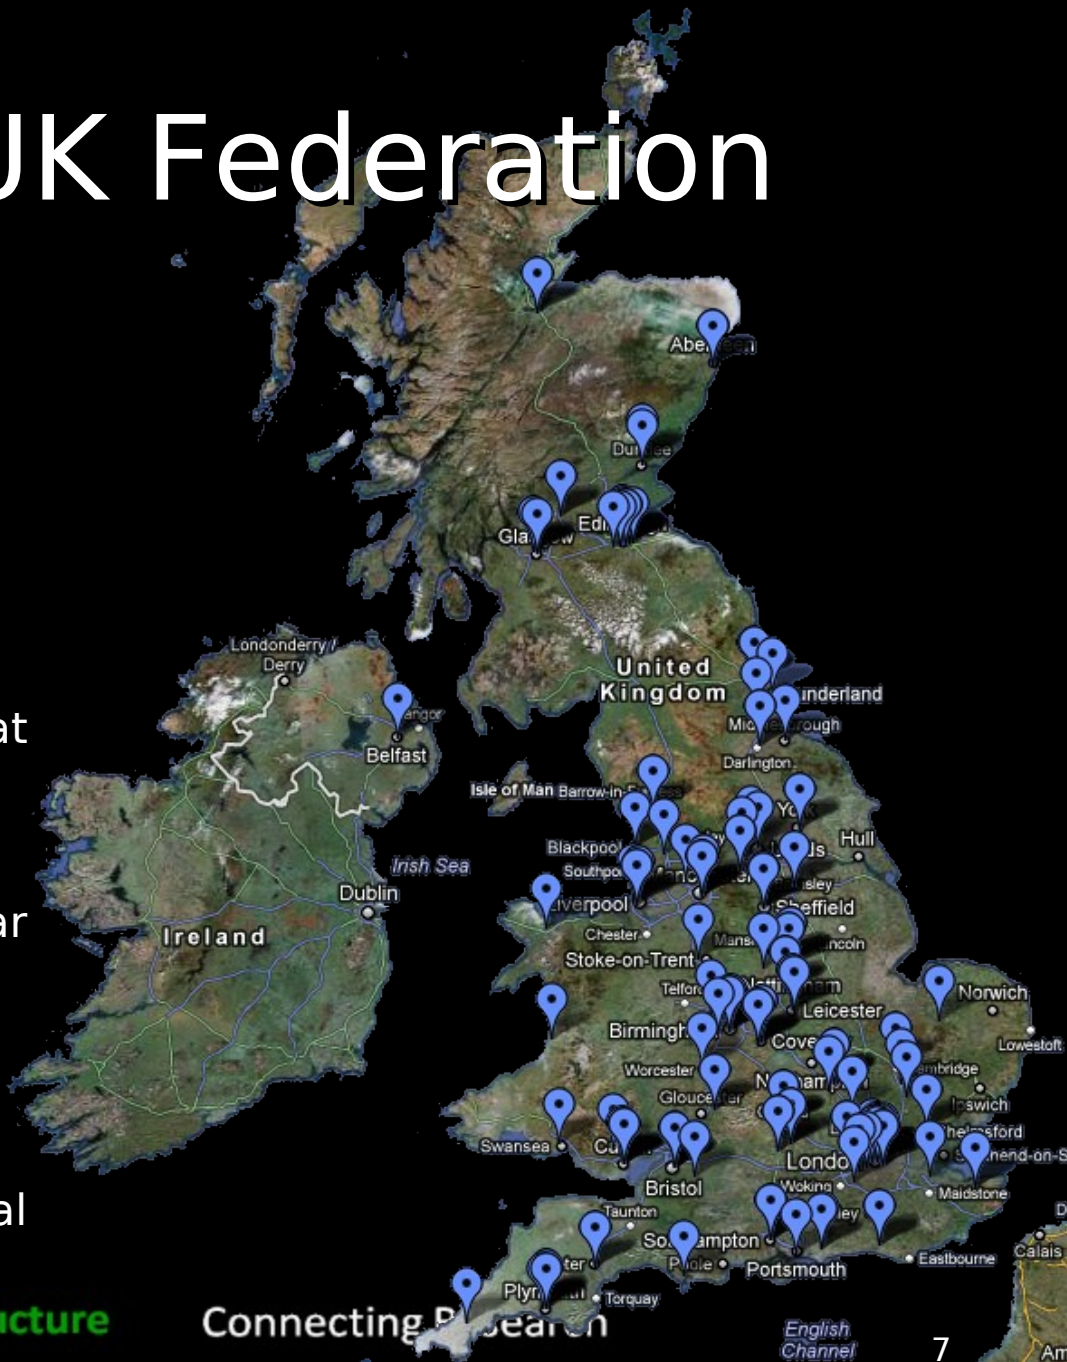

- Remove certificates
 - not gone but hidden
- Familiar Log-on
 - Inherited from UK Federated Access
- Use Portals
 - Remove tooling from user maintenance
 - Opportunity for VO hosted Portals

NES

UK Federation

- Outsource Identity Management
 - We're doing it anyhow (Matriculation)
 - Reduce support costs
 - Systems already exist at institutes
 - Increase Security
 - Phishing harder (familiar URL, branding, distributed, etc.)
 - Identity checked more regularly
 - Less ad-hoc than normal RA-CA operations

Connecting Infrastructure

Connecting Research

NES

Grid Authentication

- Need robust security
 - Risks
 - IP, data and Identity theft
 - Meeting SLA
 - Licensing
 - Impact
 - Inconvenience, Litigation, Publicity, Reputation.
- Need to be very secure

NES

Virtual Organisations

- VOs grid's answer to scaling
- Shibboleth doesn't do this well
 - IdP can assert role inside organisation
 - Can IdP assert role inside VO?
- SARoNGS has VO tooling
 - Attributes specific to Federation via Shib
 - Attributes directly from VO too

SARoNGS proxy-ing

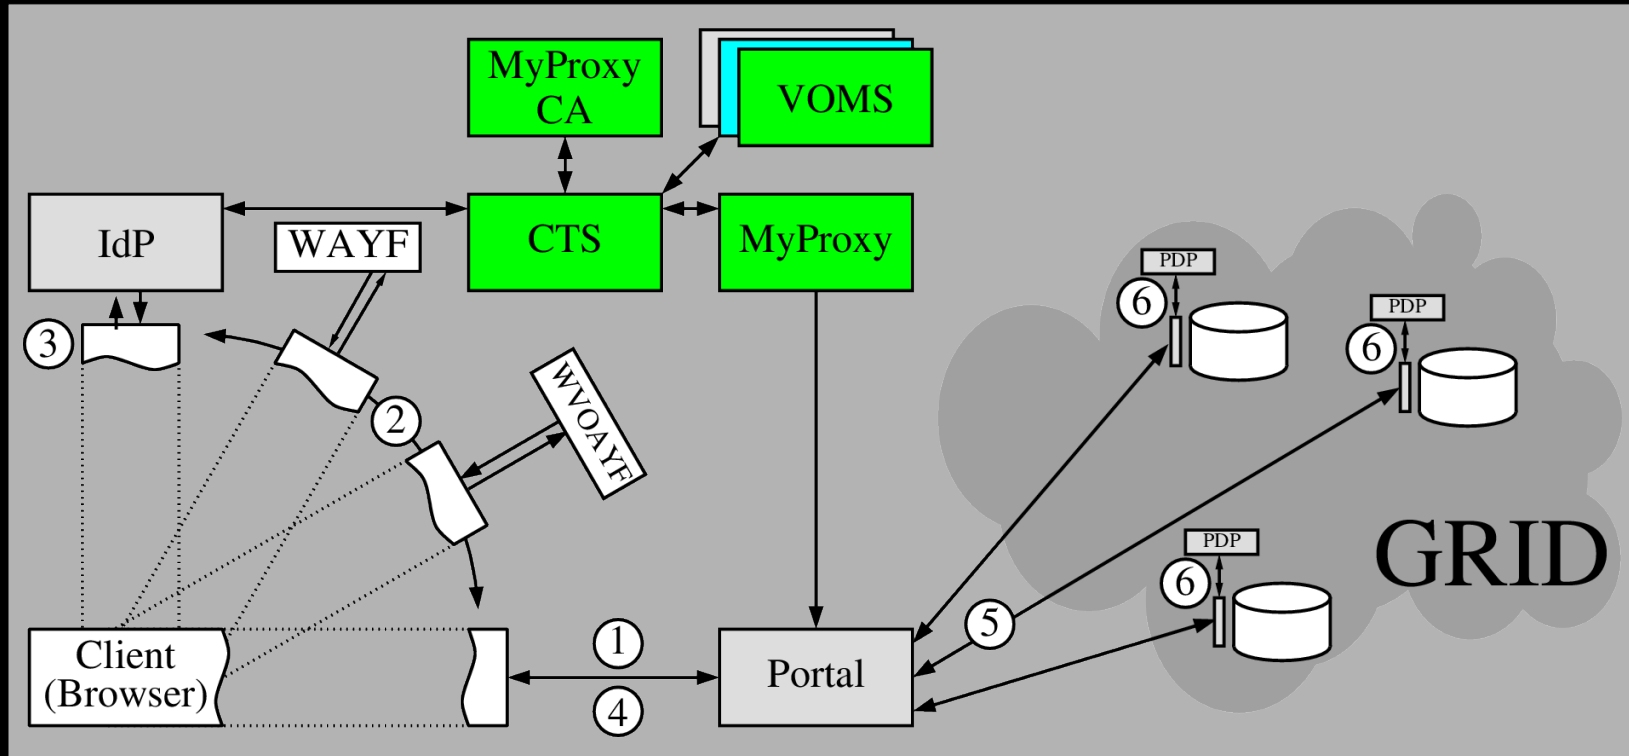

NES

Portals

- Users don't have the grid tools
- Users usually have browsers
 - So we make Portals
 - Use Browsers
 - Provide grid tools
- Shibboleth is browser based

How it works

NES

'Applications'

- Directly (via Portal)
 - NGS Portal
 - MIMAS Landmap demo ('09)
 - Manchester's BioPortal
 - OneVRE
 - WRG's P-Grade Portal
 - Taverna 1 Demo <http://youtu.be/E6RKQQ1GGoM>
 - NeISS Portal integration
- Indirect
 - GSI-SSH, MEG, Globus Tools, WMS, SRB

NES

ukfederation.ngs.ac.uk

Special VO

- Says you logged-in via the UK federation
 - you have a valid UK account
- Can assert your *scope*
 - (the institution you came from)
- Can assert your *affiliation*
 - role: (staff, member, alum, academic)

NES

Supporting Communities

- SARoNGS is a tool for grid computing
 - Masks complex security models
 - Provides an entry point to grids
- Expect VOs to provide their own portals

NES

APIs

- We don't really know the VO-scape
- Portals have a better idea
 - They know where you're going
 - They know what you're doing
 - They may be able to guess required credentials
- Documentation via NeISS and ETF
 - <http://bit.ly/NeISSARoNGS>
 - Further functionality negotiable

NES

Some API Examples

- External VOMS

`https://cts.ngs.ac.uk/API`

`VO=vomss://voms.ngs.ac.uk:15017/manchester.
ac.uk`

`RetURL=http://www.yourportal.login`

- Internal VOMS from

`https://cts.ngs.ac.uk/API`

`VO=vomss://cts.ngs.ac.uk:443/ukfederation.ngs.
ac.uk/manchester.ac.uk`

`RetURL=http://www.yourportal.login`

NES

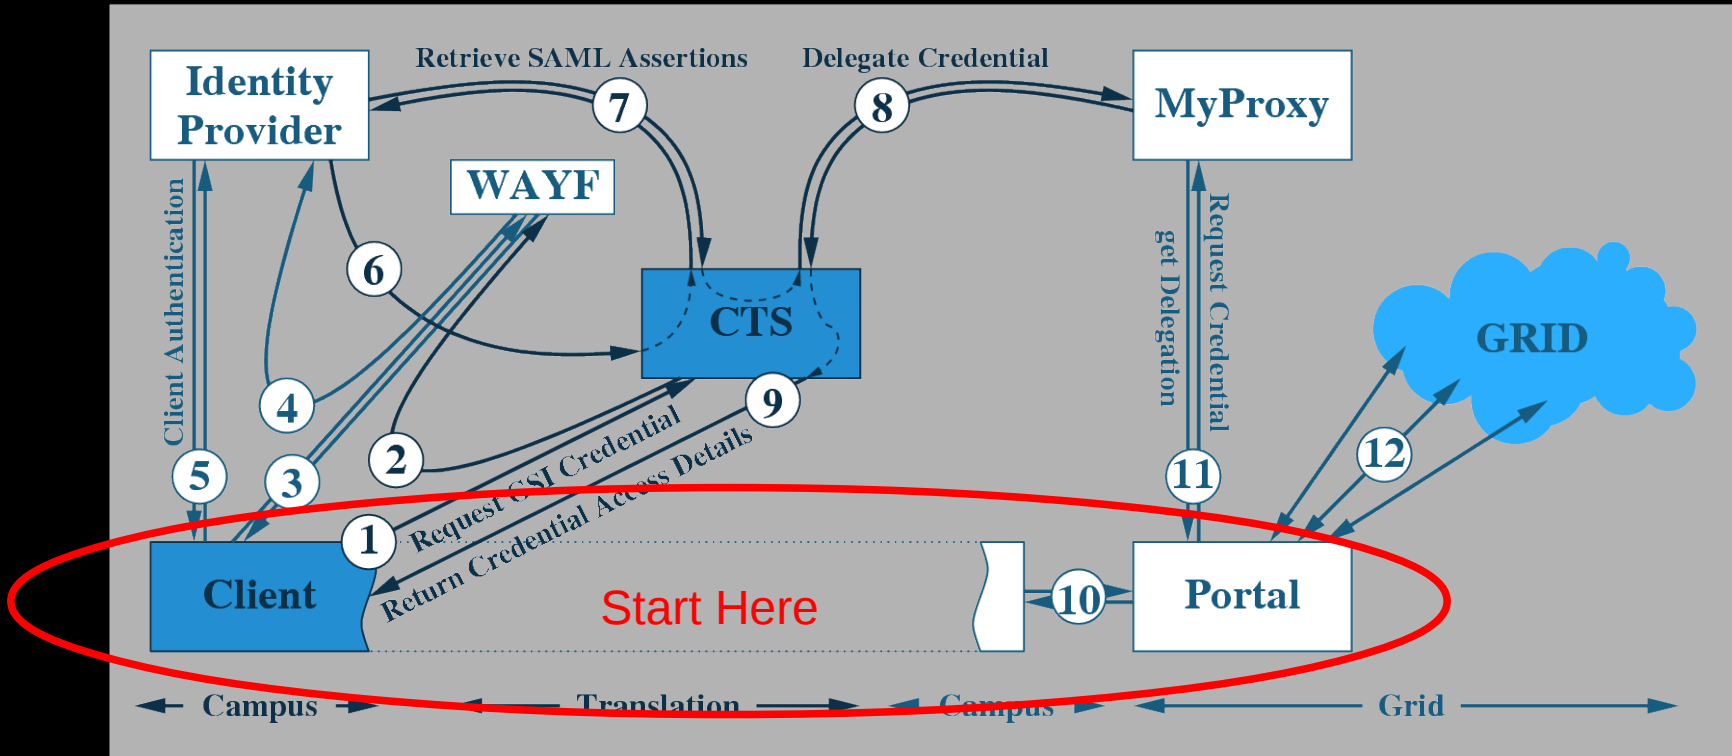

Applying it

- Put in your portals
 - “Login via NGS” button
- Use grid enabled services
- Accept UK eScience SARoNGS CA
- Accept UK NGS hosted VOs
- or Accept ukfederation.ngs.ac.uk VO

My Grid Credentials

You have no Grid-proxy credentials currently loaded

Please Login using one of the methods below

Authenticate using the UK Access Management Federation

* Please note, NGS does not yet fully support this authentication method. Although you will be able to login to the portal, you will not yet be able to submit jobs and manage your data. This will be provided soon. Apologies for the delay.

Login to UK Federation via Shibboleth

Authenticate using MyProxy Server

Upload Credentials: Launch New Upload Tool (requires Java 1.5) | Goto MyProxy Upload Home

MyProxy Server: //myproxy.ngs.ac.uk:7512

Myproxy Username:

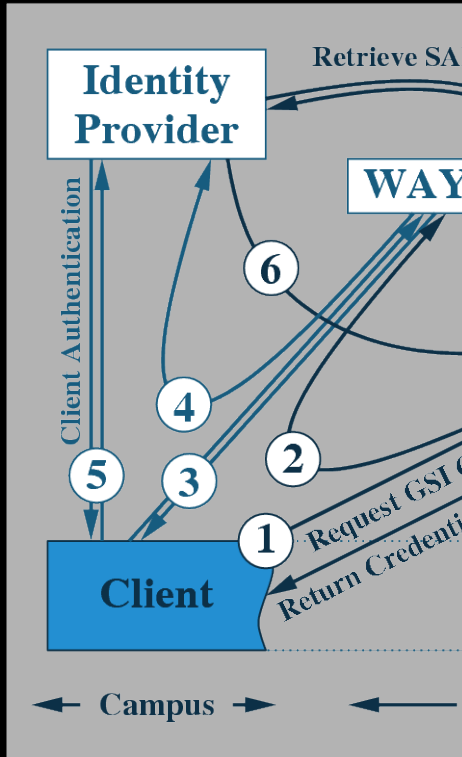

Myproxy Password:

Central Authentication Service

[More information](#)

Login with central username and password

Username:

Password:

Warn me before logging me into other sites.

Web Authentication Advice

1. Always check that this page has the correct URL (<https://login.manchester.ac.uk/cas/>) before logging in.
2. Log out and close your web browser when you have finished using services that require authentication.

Read more [security advice](#) from IT Services

You are seeing this page because a website needs to check your identity. After you log in you will be returned to the website you wish to access.

Authentication and Authorisation Guides

- [Accessing intranet services](#)
- [Accessing federated online resources](#)
- [Accessing legacy and Athens resources](#)

Your IT Accounts and Online Identity

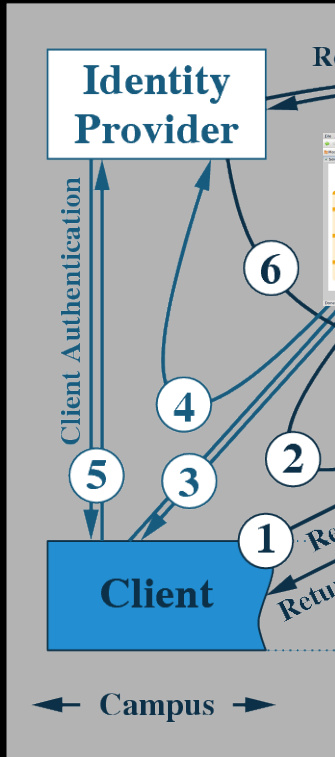

- [Sign Up](#) to get your IT Account, or check [your IT account](#) information
- [Change your password](#)
- Recover a [forgotten username or password](#) or [unlock your account](#)
- Contact [the IT Servicesdesk](#) for help with your IT accounts

Available Features

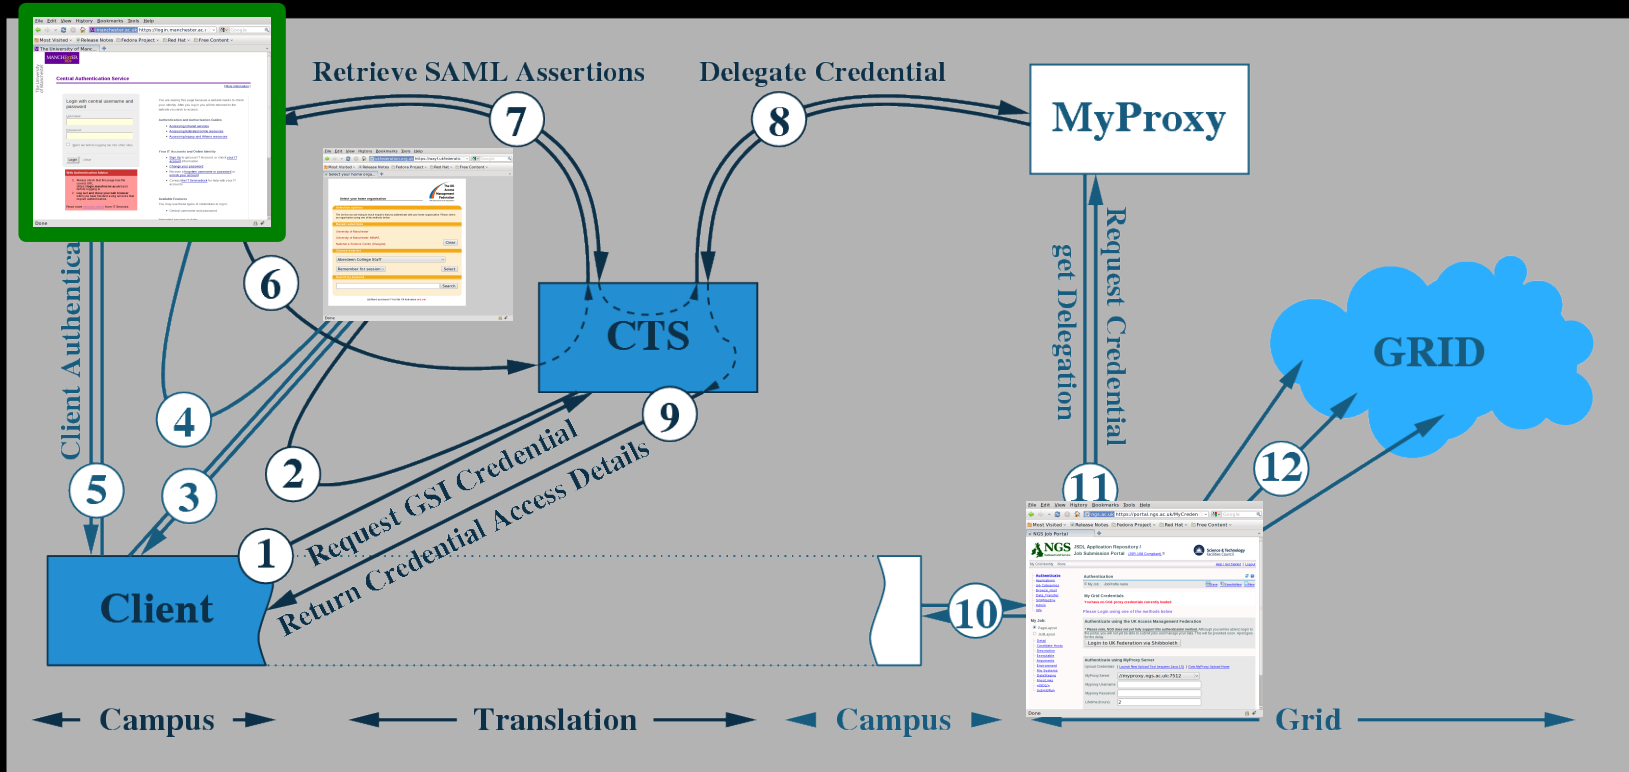

You may use these types of credentials to log in:

- Central username and password

Integrated services include:

NES

- NGS
- Login
- NGS_CA_Hierarchy
- UK eScience CA
- Documentation

Your identity has been verified successfully.

To continue the login process with default options click here: [Complete login to portal.ngs.ac.uk](#)

Advanced Options:

You now have the option of adding your affiliation. Use the table below to configure your asserted affiliations. Once you are happy with the format of your credential, click "Continue" to generate it and make it available to you.

[Add VO Attribute](#)

VO	Group/Role	Attribute	Config	Cached	Control
ukfederation.ngs.ac.uk	/ukfederation.ngs.ac.uk/manchester.ac.uk /Role=Staff	/ukfederation.ngs.ac.uk/mar	OK	OK	Remove this attribute

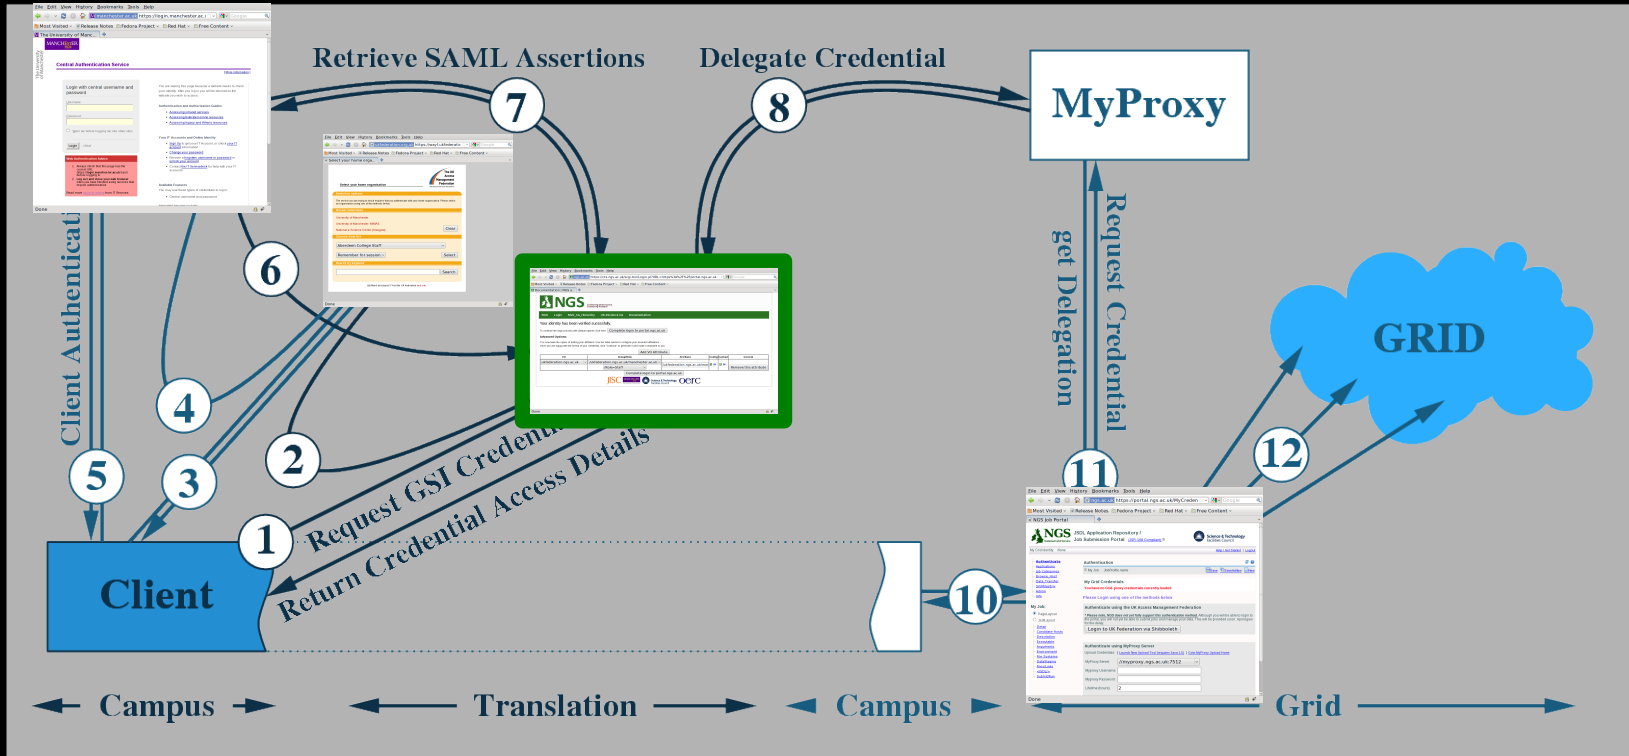

[Complete login to portal.ngs.ac.uk](#)
