

Resource Centre Forum

Wednesday, 10 April 2013 14:00 (10 minutes)

Impact

The goal of the Resource Centre Forum is to improve support to multiple disciplines, foster collaboration between Resource Centres from different NGIs and to allow sharing of expertise between them.

Summary

This is the IV meeting of the Resource Centre Forum, which puts together experts and representatives from the EGI Resource Centres and EGI user communities to discuss operational and technical issues that concern various topics such as deployment of licensed software, resource allocation to user groups, deployment of new technologies like GPGUS, local configuration systems, etc. The goal of the Resource Centre Forum is to improve support to multiple disciplines, foster collaboration between Resource Centres from different NGIs and to allow sharing of expertise between them.

This 3 h session is aimed at VO operations managers, to site representatives and NGI operations teams.

Description

User communities will present and discuss operational issues with resource infrastructure provider representatives.
