

Coordinated offering of federated resources: requirements, models and activities

Tuesday, 29 January 2013 14:40 (20 minutes)

We present the works of the Resource Allocation Task Force on requirements of user communities and resource providers, and we propose various resource allocation models with the related roles and activities for discussion.

Presenter: Mr SZEPIENIEC, T. (CYFRONET)

Session Classification: Coordinated offering of a federated resource pool
