Report of Contributions

Contribution ID: 0

Type: **not specified**

Welcome & Agenda bashing

Tuesday, 16 April 2013 10:00 (10 minutes)

Presenter: NEWHOUSE, Steven (EGLEU)

Session Classification: Admin & Regulars

Contribution ID: 1

Type: **not specified**

Actions review

Tuesday, 16 April 2013 10:10 (20 minutes)

Presenter: NEWHOUSE, Steven (EGLEU)

Session Classification: Admin & Regulars

Contribution ID: 2

Type: **not specified**

Requirements management

Tuesday, 16 April 2013 10:30 (15 minutes)

Presenter: DRESCHER, Michel (EGLEU)

Session Classification: Admin & Regulars

Contribution ID: 3

Type: **not specified**

Task Forces reports

Tuesday, 16 April 2013 10:45 (15 minutes)

Presenter: DRESCHER, Michel (EGLEU)

Session Classification: Admin & Regulars

Contribution ID: 8

Type: **not specified**

Configuration Management for Community Platforms

Tuesday, 16 April 2013 11:00 (15 minutes)

This session is a follow-up on Action 14/02

Presenter: Dr FERRARI, Tiziana (EGLEU)

Session Classification: EGI Core Infrastructure Platform

Contribution ID: 9

Type: **not specified**

Information Systems evolution

Tuesday, 16 April 2013 11:15 (15 minutes)

This session briefly outlines the EGI Core Infrastructure Information System strategy as a follow-up on Action 14/20. It will discuss the semantic division between information systems of the different platforms: Is there a need for a global information system in terms of visibility and data maintenance, across all platforms? Or, alternatively, should the information systems be partitioned by platform, while examining the potential synergies of re-using the same technology?

This session will also ingest EMI's strategy and service evolution around EMIR (see also Action 14/04)

Presenters: SOLAGNA, Peter (EGLEU); BURKE, Stephen (EGLEU); Dr FERRARI, Tiziana (EGLEU)

Session Classification: EGI Core Infrastructure Platform

Contribution ID: **10**

Type: **not specified**

EGI Core Infrastructure Roadmap

Tuesday, 16 April 2013 11:30 (15 minutes)

This contribution will describe the goals and objectives for the evolution of the EGI Core Infrastructure Platform in the EGI-InSPIRE PY4 until April 2014.

Presenter: Dr FERRARI, Tiziana (EGLEU)

Session Classification: EGI Core Infrastructure Platform

Contribution ID: 11

Type: **not specified**

Roadmap to production

Tuesday, 16 April 2013 12:00 (15 minutes)

This contribution will describe the next 6 months on how the EGI Cloud Infrastructure Platform will be transitioned into production.

Parallel to the production transition, the roadmap will indicate further goals and objectives to be examined in the test bed until April 2014.

Presenter: DRESCHER, Michel (EGLEU)

Session Classification: EGI Cloud Infrastructure Platform

Contribution ID: 12

Type: **not specified**

User orientated documentation

Tuesday, 16 April 2013 11:45 (15 minutes)

This contribution will report on the documentation activities for user engagement with the EGI Cloud Infrastructure Platform.

It is a follow up of Action 16/04 and will touch on the following topics:

- Benefits
- Dos and Don'ts
- How to integrate with the EGI Cloud Infrastructure Platform

Presenter: Dr SIPOS, Gergely (EGLEU)

Session Classification: EGI Cloud Infrastructure Platform

Contribution ID: 13

Type: **not specified**

Globus Online integration

Tuesday, 16 April 2013 12:15 (15 minutes)

Progress report on the Globus Online integration.

Presenter: Dr SIPOS, Gergely (EGLEU)

Session Classification: EGI Collaboration Platform

Contribution ID: 14

Type: **not specified**

Roadmap until April 2014

Tuesday, 16 April 2013 12:30 (15 minutes)

This contribution will describe the goals and objectives for the evolution of the EGI Collaboration Platform in the EGI-InSPIRE PY4 until April 2014.

Presenter: Dr SIPOS, Gergely (EGLEU)

Session Classification: EGI Collaboration Platform

Contribution ID: 15

Type: **not specified**

Mapping current software stacks into Community Platfors

Tuesday, 16 April 2013 13:30 (30 minutes)

This contribution will continue the work on mapping existing Grid middleware stacks into the Community Platform model.

Discussion and agreement on this model will then provide further scope on the target audience for the TCB and URT as discussed later that day.

Session Classification: Transitioning to the new EGI ecosystem support model

Contribution ID: 16

Type: **not specified**

EGI support models for Technology Providers

Tuesday, 16 April 2013 14:00 (30 minutes)

Further elaborating on previous work, this contribution will clarify EGI's support model for Technology Providers in the collaboration models discussed in previous meetings.

Presenter: DRESCHER, Michel (EGLEU)

Session Classification: Transitioning to the new EGI ecosystem support model

Contribution ID: 17

Type: **not specified**

Implementing the new TCB

Tuesday, 16 April 2013 14:45 (30 minutes)

Session Classification: Transitioning to the new EGI ecosystem support model

Contribution ID: **18**

Type: **not specified**

Implementing the URT

Tuesday, 16 April 2013 15:15 (30 minutes)

Session Classification: Transitioning to the new EGI ecosystem support model
