1. Welcome and acknowledge all participants - apologies received - note any absent members
2. Introduction by Chair with outline of aims of this meeting
3. Acceptance of previous Minutes
4. Review of assigned actions & task progress reports
5. Items for discussion
6. Next steps
7. Details of next meeting date, time, purpose
8. AOB

### Minutes

**1. Welcome and acknowledge all participants - apologies received - note any absent members**

None.

**2. Introduction by Chair with outline of aims of this meeting**

The VT coordinator highlights that the webex conference will be mainly dedicated to check the status of the gathering process of CTA user requirements related to Science Gateways and to the SSO system (task 2).

**3. Acceptance of previous Minutes**

The minutes of the previous face to face meeting (10 April 2013) are approved.

**4. Review of assigned actions & task progress reports**

Task 1 (Claudio) / Actions: 1.2, 3.1

Action **1.2** is a continuous action so it is kept open.

Action **3.1** is kept open because there are still people listed as members of the CTA VT who have not inserted yet their information in the spreadsheet. The coordinator will send a final message asking people to provide their information by Sunday 5 May. After that date the spreadsheet will be definitely closed and the clusterization of the information (on a per country and per activity basis) finalized.

Task 2 (Nadine) / Actions: 4.2 - 4.5, 5.1, 5.2

Action **4.2** is kept open. The brainstorming activity with the Italian community of CTA end users will be finalized by the end of the week. Further requirements collected will be forwarded to Nadine Neyroud who will provide to update the UR document.

Action **4.3** is closed.

Action **4.4** is rephrased given that the previous formulation was misleading: "Collection of SSO-related requirements coming from the end users of the CTA collaboration".

Action **4.5** is kept open. Once the SSO-related requirements are collected, they will be passed on to Brook Schofield to be analyzed in view of the production of technical suggestions and recommendations for what concerns the deployment of an IdF for the CTA collaboration. This will be done before the webinar on Identity Federations dedicated to the CTA collaboration. The collected requirements will drive the preparation of the webinar.

Action **5.1** is closed.

Action **5.2** is kept open; it will be closed after the insertion in the UR document of requirements provided by the Polish, the Italian and the Bulgarian communities.

Task 3 (Gergely)

No news to report about task 3.

## **5. Items for discussion**

None.

## **6. Next steps**

Two new actions are added:

Action **6.1** - "Brainstorming with Bulgarian CTA end users to gather further requirements not yet captured in the previous phases" in charge of Todor Gurov. This action will be carried out by Tuesday 7 May.

Action **6.2** - "Organise a Webinar about identity federations, eduGAIN, and a preliminary analysis of the SSO requirements of the CTA project (based on the requirement document)". This action is in charge of Brook Schofield and Claudio Vuerli. The agreed date for this webinar is Thursday 23 May in the morning.

These two actions will be discussed during the next CTA VT webex conference.

**7. Details of next meeting date, time, purpose**

The next CTA VT webex conference will be held on Tuesday 21 May at 14:00.

**8. AOB**

None.
