

User Community Board

Tuesday, 17 September 2013 14:00 (1h 30m)

Description of Work

*

Wider Impact of this Work

*

Session, double-session

1 session

Printable Summary

The User Community Board develops policies, strategy and technical priorities concerning the deployment of the production infrastructure by the main EGI user communities.

In this session the evolution user communities are invited to meet with NGI operations to discuss technical requirements, new use cases, problems that are experienced with the use of the infrastructure and its tools for monitoring, accounting and support.

This session is aimed at user communities, the NGI operations managers and the partners responsible of EGI operations services and tools.
