

GPGPU workshop: SESSION I Describe and advertize GPGPU resources

Monday, 16 September 2013 14:30 (30 minutes)

One of the crucial steps in the GPGPU integration process is how to describe and advertise these resources through the Grid Information System. This session will see the presentation of (basic) preliminary experiments and results on a non-production testbed using the current GlueSchema support for Cluster/SubCluster Resources.

Presenter: WALSH, John (TCD)

Session Classification: Resource Centre Forum
