

Critical Security Handling procedure

Tuesday, 25 January 2011 12:15 (30 minutes)

As you may know, CSIRT has recognised that a Critical Security Operational Procedure needs to be defined. I have drafted one, and it has been iterated a few times with Mingchao and other CSIRT members. We think it is now mature enough to ask you for your opinion on it. Mingchao and I think that the OMB will need to approve it, as it defines the steps leading up to site suspension. [Linda]

Presenters: CORNWALL, Linda (STFC); MA, Mingchao (STFC)

Session Classification: OMB PART 2: Procedures for review
