

## Site Certification Procedure

Vera Hansper  
CSC/NDGF

- Document at <https://wiki.egi.eu/wiki/SiteCertMan>
- A number of accompanying pages which give further details on how to proceed at certain steps:
  - [https://wiki.egi.eu/wiki/SiteCertMan/Required\\_information](https://wiki.egi.eu/wiki/SiteCertMan/Required_information)
    - Relevent to GOCDDB entry
  - <https://wiki.egi.eu/wiki/SiteCertMan/RequiredDocuments>
  - [https://wiki.egi.eu/wiki/SiteCertMan/GIIS\\_BDII\\_check](https://wiki.egi.eu/wiki/SiteCertMan/GIIS_BDII_check)
  - [https://wiki.egi.eu/wiki/SiteCertMan/Grid\\_manual\\_tests](https://wiki.egi.eu/wiki/SiteCertMan/Grid_manual_tests)

- Introduction
  - Include relevant partners and how a certified site differs from a test site.
  - Replace some terminology with that as decided in D1.4
- Support pages
  - Add SLA/OLA documents to the required documents page
  - **Emphasise in main text the OLA requirements**
  - Add examples for how to use ARC middleware when testing the site's services.

- Many thanks also and due credit to
  - Andres Aeschlimann
  - Goncalo Borges
  - Alvaro Lopez
  - Alessandro Paolini

Plus a number of others who sat through the phone conferences and contributed there.

- Discussion with Tiziana on how to create wiki pages for the Operations space
  - A number of categories relevant to the area will be created
  - A horizontal navigation bar will be provided by Sara Coelho
  - A contents template/script to have this appear on the right side of the page will also be provided by Sara.
- There will be a HOWTO created to help people with this process
