

## EGI-CSIRT activity update Jan. 2014

Sven Gabriel

## Communications Channel Challenge

- RT-IR (Carlos) needs some modifications
- GOC-DB to allow RT-IR to access the rest interface (request pending).
- The code for RTIR has been developed, to be tested as once access to GOC-DB is ready.
- Communication template done.
- ToDo implement RT-IR code in production.

**Some more sites with insufficient Contact information spotted, this needs to be addressed.**

## Central Suspension Update

- replaced argus.cern.ch with a CNAME to lcg-argus.cern.ch
- 42 tickets "NGI Argus requests for"; 23 closed ; 19 in progress/on hold
- No easy way to map tickets against DNs in goc-db, ...in progress
- Monitoring NGI Argus: open to be discussed in EGI-CSIRT today

## EGI Fed-Cloud / security

- Fed-Cloud F2F 13/14 Jan. [Fed-Cloud F2F 13/14 Jan.](#)
- In Progress: Questionnaire for cloud service providers
- Certification Procedure / EGI-CSIRT involvement, details to be discussed today

## EGI-CSIRT Trusted Introducer Certification

- Trusted Introducer TF-CSIRT is a community of 200+ (mostly) European CERTs
- Research, ISPs, Finance, Industry certs.
- EGI-CSIRT accredited since Oct. 2012
- Now under external review, Certification candidate since Jan. 2013
