

DIRAC 4 Life-Science

Wednesday, 21 May 2014 11:00 (1h 30m)

DIRAC has started a collaboration with EGI.eu to offer an open service to the european e-Infrastructure. This service will be pilot by several communities of different fields: Astrophysics, Life-Science, Engineering, etc. and will then be offered to others as single access point to all kind of distributed computing and storage resources in Europe and beyond.

The Life-Science communities are offered a dedicated Networking session with DIRAC 4 EGI initiative responsible team to analyze their use cases and requirements to join the initiative.

This networking session will be followed by a hackaton session in which some selected use cases will be work out with interested representatives of the communities for its online incorporation to the initiative.

Wider impact and conclusions

Analysis of the use cases and requirements from different communities to collaborate with them and provide open access to the e-Infrastructure through the DIRAC 4 EGI service.
