

Collaboration between XSEDE and the European Grid Infrastructure

Thursday, 22 May 2014 11:00 (1h 30m)

This public session will report about the partnership between XSEDE and EGI, and will explore further collaboration opportunities to benefit scientists in the U.S. and Europe. The session will consist of presentations and discussions about the following topics:

1. Security - Status report on the EGI-XSEDE security interoperability based on joint access testing work
2. Help Desk - report about the investigation that explored transferring and resolving tickets between the EGI and XSEDE helpdesks
3. Consulting/training/knowledge presentation - Presentation by XSEDE and EGI on main user support processes and at which points the other, XSEDE or EGI, can be connected into the process
4. Technology Investigation Service - Presentations by XSEDE and EGI on the XSEDE XTED and EGI app database

Presenters: Dr SIPOS, Gergely (EGLEU); TOWNS, John (XSEDE and NCSA/Univ of Illinois); KRAKOWIAN, Malgorzata (EGLEU); KACSUK, Peter (MTA SZTAKI)

Session Classification: Collaboration between XSEDE and the European Grid Infrastructure
