

Interoperability Roadmap

Monday, 19 May 2014 16:05 (20 minutes)

This presentation will show outcome of the recently published Interoperability Report which highlights the work undertaken during Helix Nebula EC Project for integration and interoperation of Commercial Cloud providers with publicly-funded e-infrastructures and the advancement on interoperability recommendations and actions included in the Interoperability Roadmap of 2013. The discussion aims at reaching wide consensus on future collaboration and next steps in this area.

Presenter: ASERO, Carmela (EGIEU)

Session Classification: Helix-Nebula workshop
