Monday, 19 May 2014

e-Infrastructure Services for Earth Science - Room 8 (15:00 - 18:00)

-Conveners: Horst Schwichtenberg; Monique PETITDIDIER

time	[id] title	presenter
15:00	[12] Updates on Earth Science Applications	SCHWICHTENBERG, Horst PETITDIDIER, Monique
15:15	[85] Atmospheric applications on the European Grid	Dr PETITDIDIER, Monique
15:30	[83] Increased Computational Requirement of Meteorological and Crisis Applications	Prof. HLUCHY, Ladislav
15:45	[111] Migrating climate models to Grid: from EGEE to EGI experiences	Dr COFIÑO, Antonio S.
16:00	[104] iclim/ocgis: a generic climate impacts indices calculation package interfaced with the tailored IS-ENES web portal climate4impact WPS	PAGE, Christian
16:15	[114] Two recent seismological applications implemented on the EGI Infrastructure	Mr FRANK, William
16:30	[112] Seismology Data Management in VERCE	Mr MURALEEDHARAN, Visakh
16:45	[99] Distributed trace processing on Cloud resources	GEMUEND, Andre Mr CLAUS, Steffen
17:00	[81] Grid, Cloud and Mobile exploitation in Earth Sciences	Dr LA ROCCA, Giuseppe BRUNO, Riccardo
17:15	[131] Updates on Earth Sciences applications - discussion	SCHWICHTENBERG, Horst PETITDIDIER, Monique
