## Dissemination F2F

*Tuesday, 12 April 2011 16:00 (1h 30m)*

### Overview

A closed NA2 face to face meeting.

### Impact

This session will allow the head office dissemination team to actively help partners by taking the issues/ideas raised from the BoF and selecting tasks which can be done or assisted by the team in Amsterdam and getting that started.

### Description of the work

This will be a more direct session for partners to talk with the head office to discuss what we can provide them and will allow us to follow up on any issues that were raised at the BoF which weren't covered. It also gives us time to solidify ideas from the BoF which can be brought to the F2F maintaining momentum.

### Conclusions

We would prefer a "closed" session on the Thursday (outside the conference programme) aimed at solely people working with/for/on EGI.
