

PCP and PPI (Pre-commercial Procurement and public procurement of innovative solutions): Overview and opportunities

Thursday, 25 September 2014 11:00 (20 minutes)

Pre-Commercial Procurement (PCP) and Public Procurement of Innovation (PPI) are promoted by the EC as an instrument to enable the public sector to provide the market with a clear indication of their needs, boosting industry research towards solutions that are compliant with their needs. As involved in the PCP process itself, the companies participating in the PCP will get the opportunity to acquired a leadership in a new european ICT market created by the PCP R&D cooperation.

This presentation illustrates how PCP can be an opportunity for ICT resources suppliers to offer new solutions to the public sector.

Presenter: SPINOSO, Vincenzo (INFN)

Session Classification: EGI Pay-for-Use
