

A vertical image on the left side of the slide shows a network diagram with blue nodes connected by lines, overlaid on a map of Europe.

Operations Portal Status update and requirements analysis

Cyril L'Orphelin

- Main version 3.0 released on April 7 th
- Since 2 version 3.0.1 and 3.0.2
- A new release is foreseen in the coming 2 weeks
- Activity reduced due to the leaving of one developer

- Cloud computing and storage are visible in the list of middlewares
- The new discipline classification is available for registration and update
- Data Disciplines have been updated
- Next release :
 1. Adapt the metrics to the new discipline classification
 2. Adapt the ticket workflow : 'verified' status

- Dashboard : remaining bugs to be fixed
- Dashboard : Improvement on ticket template and subject
- Dashboard : Improve ergonomics
- Security dashboard : deploy the feature
- Prepare a tutorial for the operators
