AGENDA

	Agenda Item	Action
1.	<p>Introduction and Operations update</p> <ul style="list-style-type: none"> • RP and RC OLA: after 25.09 if no major comment approved • Call for feedback: EGI.eu SLA, Technology Providers SLA • GSTAT support • New VOMS for OPS VO campaign status • September EGI conference reminder • Operations Portal news <ul style="list-style-type: none"> ○ Upcoming webinar for RODs • Fed cloud news <ul style="list-style-type: none"> ○ Update of Procedures no. 14 and 13 ○ Upcoming support in e-grant <p>Discussion: Kostas: How EGI guarantee the SLA not providing the services?</p>	<p>NGIs: Feedback on RP and RC OLA till 25.09</p> <p>NGIs: Feedback on EGI.eu SLA and TP SLA till October OMB</p> <p>NGIs: follow up new ops VOMS configuration at sites</p> <p>CESNET: to check the OPS VOMS configuration in Perun</p>

	Malgorzata: this is guaranteed by the OLA in place with the core services providers.	
2.	<p>Federated cloud activities update</p> <ul style="list-style-type: none"> • Integration in production is now followed up by operations. • 19 fully integrated resource providers. 3 integrating resource providers, 2 in Europe and 1 in Korea. • Last OGF meeting, produced connections with US sites to start a process of collaboration/integration. • Need for certification at service level? CERN added cloud service without being part of the federated cloud and they're publishing accounting. There is need to control that services are production in the fedcloud meaning. • GRNET will lead the data management scenario. • 7 new user communities joining the fedcloud from May. 	<p>EGI Operations (Malgorzata): merge the site certification procedures (9 and 18)</p> <p>EGI Operations: evaluate changes in the certification status at site level. Discuss binding setting "PRODUCTION" & "MONITORED" statuses in GOC DB.</p>
3./4.	<p>Status of Argus support/Central user suspension, status and roadmap</p> <p>Decision: Pilot with 2-3 sites (in 1 month), wider deployment only is we have support</p> <p>Comments: Marcin: Need to have in place Technology Providers SLA. Kostas: Whoever support Argus should also keep an eye in the cloud interfaces development and how they can interact Emir: problem to test subset of Argus'es differently, maybe introduce new service type only for NGI Argus? Kostas: I would postpone any heavy activity regarding Argus till we have proven sustainability Gonçalo: JAVA7 support for ARGUS is critical.</p>	<p>EGI Operations (Peter): investigate need to have separate service type for NGI Argus'es</p> <p>NGIs: Contact EGI Operations if want to be part of the pilot</p>
5.	<p>SAM probes refactoring</p> <p>Decisions: FTS test: remove from Monday 22nd the FTS2 tests from critical profiles. Approval from new tests in SAM23 added to the profile. Approved.</p> <p>GLUE Validation adding to Operations set of test and moving to NGI SAM: Approved</p>	

	<p>Comment: Gonçalo: adding glue-validator on A/R will cause big drops because problems are not always depending on the sites.</p> <p>LFC test proposal: decommission org.sam.WN-Rep* and org.nordugrid.ARC-CE-LFC* tests in SAM Update-23 release; keep ch.cern.LFC* tests: Approved</p> <p>Probes Release Changes proposal: Approved</p> <p>Comment: Peter: for Update 23 do the SR for probes and SAM together</p> <p>Documentation Changes proposal: Approved</p>	
6.	<p>Resource allocation report</p> <p>Decision: keep open the survey and report again during October OMB</p>	<p>NGIs: Answer to RA survey https://wiki.egi.eu/wiki/RA_policy_survey</p>
7.	<p>UMD update</p> <ul style="list-style-type: none"> • UMD2 decommissioning <ul style="list-style-type: none"> ○ All monitored services are upgraded, except: Asia/Pacific ○ UMD2 repositories will be “frozen” • APEL clients migration <ul style="list-style-type: none"> ○ http://bit.ly/umd2_apel ○ unresponsive sites/NGIs: <ul style="list-style-type: none"> ▪ NGL_CYGRID - CY-01-KIMON/ ▪ Asia/Pacific - MY-UPM-BIRUNI-01, TW-FTT • dCache <ul style="list-style-type: none"> ○ Timeline: <ul style="list-style-type: none"> ▪ Start monitoring 22nd of September ▪ To be upgraded by the 31st of October • End-of-life mode of gfal and lcgutil - Fri, 05/09/2014 <ul style="list-style-type: none"> ○ <i>Support for both will definitely end the 1st of November 2014, so we recommend to all our users to switch to the newer gfal2 and gfal2-utils.</i> 	<p>NGIs: find Early Adopters for: EMI3 CREAM-LSF,FTS3, CVMFS and SQUID</p> <p>NGIs: follow-up the upgrade of APEL clients</p> <p>NGIs: follow-up the dCache decommissioning campaign</p>

	<ul style="list-style-type: none"> • New products “for” UMD <ul style="list-style-type: none"> ○ FTS 3, Frontier Squid, CVFMS-client, FedCloud middleware (under discussion) • Early Adopter status <ul style="list-style-type: none"> ○ Looking for EA for: EMI3 CREAM-LSF, FTS3, CVMFS and SQUID 	
8.	<p>UMD survey outcome</p> <p>Moved to October OMB</p>	
9.	<p>AOB</p> <p>Goncalo: Ava/Rel probe is computed on the average of 30 days; Most of the time sites have to keep the ticket opened for 30 days even if they solve the problem.</p> <p>Next meeting: 30 October</p>	<p>EGI Operations (Malgorzata): discusses offline Ava/Rel Ops Portal probe issue and come up with proposal at October OMB</p>
