Participant List

Boris Parak (BP) – CESNET
Carlos Gimeno (CG) – BIFI
Ruben Diez (RD) – CESGA
Giacinto Donvito (GD) – INFN Bari
Zoltan Farkas (ZF) – ZF
Roksana Rosanka (RR) - CYFRONET
Enol Fernandez (EF) –EGI.eu
Diego Scardaci (DS) – EGI.eu

Welcome and updates about support resources (Diego Scardaci, EGI.eu)

Slides uploaded in agenda

- User Communities wiki page:
 - New structure
 - Action on all: update the wiki page with your use cases
- Big Data platforms:
 - Which institutions already offer this kind of service?
 - Bring some platforms into the European scale from a single institutional scope
 - BP: we will setup an Hadoop cluster at CESNET in the next months and we are interested in sharing our services
 - CG: working on Hadoop and interested in collaborating
 - GD: we are planning to provide an Hadoop as a Service in our site
 - DS: we are going to organize a meeting on this topic involving all the interested people
- Use Case requirements. Progress in the following areas:
 - IFCA big VM for READemption use case
 - EF is working on contextualisation for Windows OS
 - EF will start the preparation of the VM with the CLI env in the next days
- New Use Cases – Support needed :
 - 3 use cases from BILS (Swedish Elixir node)
 - VCycle (CERN ATLAS and LHCb)

Updates about use cases (from every site) and from high level tools (tool providers)

CESNET (Boris Parak)

Work with Perun developers to synchronise some VOs (DTeam, ATLAS, LHCb, etc.).

Developed a new accounting probe for OpenNebula (it supports the sub-proxies model).

BIFI (Carlos Gimeno)

BIFI is supporting ATLAS and LHCb (VAC/VCycle) use cases from CERN.

We are also helping in support the fedcloud base VM image.

CESGA (Ester Freire)

VMcatcher properly deployed in the CESGA site.

INFN Bari (Giacinto Donvito)

Still supporting DRIHM use case.

SZTAKI & WS-PGRADE high level tool (Zoltan Farkas)

We will announce soon the FedCloud WS-PGRADE/gUSE gateway.

CYFRONET & e-GRANT (Roksana Rosanka)

Need the final definition for the VM templates for e-GRANT.

Action on DS: contact David W. and Michel D. to agree on standard VM templates.

We are organising a meeting with the Cloud RPs, in December, to present them e-Grant.

IFCA (Enol Fernandez)

Support READemption use case.

OpenData CMS portal: portal to let people to do some analysis with CERN CMS data

Update from FedCloud Task Force and Operations (Enol Fernandez and Malgorzata Krakowian)

EF: Problem with OpenStack accounting probe (data loss). Fix will be available soon.

Malgorzata K. is not in the meeting.

AoB

Next meeting: Wed 10 December 11:00-12:30
