

- OCCI-OS provides OCCI support to OpenStack nova
- Development started by Intel
  - maintenance by FedCloud members
  - some effort allocated in ENGAGE
- Latest update
  - support for attaching block storage on VM creation
  - removed the registry

- Need someone to take clear ownership of the code
- Next developments (EGI-ENGAGE):
  - snapshots, VM resize, VM migration
- Other issues:
  - testing is awful
  - networking needs complete review
  - OCCI 1.2
