

Governing Infrastructure and Knowledge Commons

Tuesday, 19 May 2015 09:00 (45 minutes)

Frischmann will present his interdisciplinary research on commons. Commons are resource management/governance institutions that enable sustainable shared use of certain resources within a community. He will discuss his two recent books, *Infrastructure: The Social Value of Shared Resources* (OUP 2012) and *Governing Knowledge Commons* (OUP 2014), and their relevance to open science commons.

Presenter: FRISCHMANN, Brett (Cardozo Law School)

Session Classification: Tuesday Plenary
