[News](#)

[UMD releases status \(Joao\)](#)

[Discussion](#)

[Updates from the product teams](#)

[ARC](#)

[dCache](#)

[FTS3](#)

[Argus](#)

[Globus](#)

[Report from WLCG MW Officer](#)

[AOB](#)

Participants

Joao Pina (SA1/SA2)

Mischa Sallé (gLexec-WN, ARGUS-EES)

Andrea Manzi (WLCG MW Officer)

Christian Bernardt (dCache)

Mattias Ellert (Globus)

Cristina Aiftimiei (INFN/EGI.eu, CREAM&co, STORM, VOMS, WMS)

Vincenzo Spinoso (INFN/EGI.eu)

News

Vincenzo Spinoso will replace Cristina

UMD releases status (Joao)

Beginning of March: voms-admin 3.3.3 and QCG computing 3.4.1 (solving a problem with SSL communication). APEL in SR, announcement today.

Discussion

Andrea: UMD may want to move to StoRM 1.11.8 fixing a serious issue in 1.11.5-1.11.7, see <https://wiki.egi.eu/wiki/URT:Agenda-16-03-2015#STORM>

Updates from the product teams

ARC

Jon (by email): not much news from ARC, except we plan to have the final tag for ARC 5.0.0 end of this week, meaning that binaries will hopefully be available for testing in EPEL beginning of next week.

dCache

Christian: dCache can be moved to 2.10.

Joao: can we have a list of the sites running dCache?

Christian: <http://www.dcache.org/dcache-map.html>

FTS3

3.2.32 in EPEL-testing, upcoming in stable in a couple of weeks.

Argus

Mischa: some actions needed, discussed and summarized here:

<https://mailman.egi.eu/mailman/private/urt-discuss/2015-March/000427.html>

lcmaps-plugins have small bug fixes in a new upcoming version.

Cristina: please try by the end of May, when a new release is planned.

Globus

Mattias (see agenda)

Report from WLCG MW Officer

Andrea: by the way dCache 2.10 is under verification at TRIUMF

Christian: to get a verification report, 2.10.20 is the best choice, as 2.10.21 is deployed only on few sites.

AOB

Please everybody update https://wiki.egi.eu/wiki/URT:UMD_products_ID_cards
