

# **F2f EPOS CC meeting**

**Wednesday, 29 April 2015 - Thursday, 30 April 2015**

**INGV, Rome, Italy**

## **Draft Programme**

The meeting will be interactive, and contributions from participants are welcome.

A list of topics to be discussed follows:

## **Authentication Authorization Infrastructure (AAI)**

EGI will present the proposed solutions for AAI, and EPOS will present their use case.

Discussion about how to define a Use case will follow.

## **Cloud services and federation**

EGI will present the proposed solutions for Cloud services and federation. A discussion will follow to understand how and if they can be useful for the EPOS community.

## **Interoperability with other e-Infrastructure providers**

EGI will present their plans and solution to achieve interoperability of AAI and cloud federation with other e-Infrastructure providers EPOS is involved with (e.g. EUDAT and others).

## **Use cases definition**

The aim is to define simple use cases that can be useful for the communities involved in EPOS.
