

Open Grid Forum

Tuesday, 10 November 2015 11:00 (1h 30m)

The Open Grid Forum is the standards body for many of the protocols used by grids and clouds, e.g. GridFTP and OCCl. The agenda will be as follows:

1. Introduction to OGF and OGF's support for standards and interoperation
2. Focus on interoperation for clouds and grids, e.g. networking, security, OCCl, etc., cloud plugfests
3. Questions for the Interoperable Global Trust Federation (IGTF, www.igtf.net)
4. AOB

Links, references, publications, etc.

www.ogf.org

Additional information

Expected duration two days: will probably co-locate and coordinate with AARC for the security meetings in OGF.

Primary author: Dr JENSEN, Jens (STFC)

Co-author: SILL, Alan (CERN)

Presenter: Dr JENSEN, Jens (STFC)

Session Classification: Open Grid Forum
