

Minutes from the 2nd EGI DARIAH CC web meeting

June 19, 2015

Participants:

- Davor Davidović (RBI)
- Eva Cetinić (RBI)
- Giuseppe la Rocca (INFN)
- Maarten Hoogerwerf (DANS)
- Eveline Wandl-Vogt (AAS)
- Philipp Wieder (GWDG)

Topics:

1. Questionnaire
2. DARIAH WG Proposal
3. EGI Virtual Organization for A&H
4. Dissemination plan
5. Activities report
6. Other

1 Questionnaire

- Final version (<http://grid.ct.infn.it/surveys/index.php/922586/lang/en/newtest/Y>)
- Davor → contact Costis Dallas and Nephelie Chatzidiakou ([WG Digital Methods and Practices Observatory \(DiMPO\)](#)) on broadcasting the questionnaire within DARIAH (A&H) community
- The main objection was on the number of questions → the set of questions is reduced based on the research role (developer, administrator or end user)
- Reference our future DARIAH Working Group with the questionnaire (add reference on the survey's welcome screen) (Davor)

2 DARIAH WG Proposal

- Philipp and Tibor → communication with VCCs
- First version of the proposal – mid July
- Since the DARIAH wiki has restricted access, the building of the WG proposal is moved to google docs (the EGI DARIAH CC folder to which all CC members has an access)

3 EGI Virtual Organization for A&H

- Building a new EGI virtual organization for A&H is the key objectives of the CC
 - required in order to provide infrastructure to A&H users
- Responsible person: Zoltan Farkas
- No working activity in this direction so far
- Implementation and testing will be done within the default (global) VO – fedcloud.egi.eu
 - not a sustainable solution → membership limited to 6/12 months

4 Dissemination plan

- Responsible person: Eveline Wandl-Vogl
- A draft plan is produced by Eveline and Davor
 - the main dissemination activities defined
- To be discussed on the next web meeting

5 Activities report

- Giuseppe and Eveline → start working on importing the Bavarian dialects database in the gLibrary framework
 - the gLibrary framework need to be update according to the database requirements
 - Eveline and her team will provide a test set and the translations in English to Giuseppe by end of June.
- Short term goal → Find other concrete use cases that could benefit from specific DARIAH-CC mini-projects (we will have more new potential use cases after the questionnaire is finished)
- Philipp will search for other possible use cases within DARIAH-DE that have a potential to benefit from CDSTAR

6 Other

- Update DARIAH CC wiki pages (https://wiki.egi.eu/wiki/Competence_centre_DARIAH)
 - add description of the mini-projects (Giuseppe, Zoltan and Tibor/Philipp)
- Provide DARIAH use cases for Indigo-DataCloud project (Philipp and Eva)
- Next DARIAH CC web meeting → mid July
