

UMD 1.0: call for priorities

T. Ferrari, 15 March 2011

- ALL NGIs are invited to consult the site managers and specify their integration priorities for EMI 1.0, this will be needed to populate UMD 1.0
- Timelines
 - Deadline for input: 06 April
 - Discussion at April OMB
 - Input provided to TCB and SA2

- What is “high priority”?
 - All gLite 3.1 components that reach end of life by 01 July
 - Site services: UI, WN, Compute (ARC, CREAM, ...), Data Management (dCache, DPM, StoRM, ...), BDII
 - Components not existing in gLite 3.2: e.g. WMS
 - Components that include critical fixes and new functionality (check the EMI release notes)
 - ...
- What components in gLite 3.2 should be supported at high priority?
 - All components not part of UMD 1.0
 - ...
