URT Meeting Oct 12, 2015 - Minutes

Participants

Andrea Manzi
Vincenzo Spinoso (INFN/EGI.eu)
Jon Kerr Nielsen
Joao Pina
Mischa Sallé (Nikhef)

Apologies

Tomasz Piontek (QCG)
Christian Bernardt (dCache)

Minutes

- CentOS7: gfal2 products (**in sl6/sl5 this components were test under the UI/WN since we don't have UI/WN how to test then?**): Vincenzo to contact Cristina
- puppet used for configuration instead of yaim; when providing packages for CentOS7 please tell us if you use puppet and have puppet recipes ready for your package
    - Andrea: FTS has puppet modules, I'll provide you with them
- Andrea/Mischa: can packages be integrated only in one of CentOS7 or Ubuntu? Vincenzo: yes.
- Joao: topBDII received, work in progress.
- glue-validator: proposal to stop the service at startup if the generated ldip is not valid
    - Andrea: it can be anyway forced to start no matter what the glue-validator says

Next meeting October 26, 2015 (in two weeks)
