Long tali of Science platform

Wednesday, 11 November 2015 16:20 (20 minutes)

EGI enables researchers to get access to distributed resources, EGI have recognised the need for simpler and more harmonised access to the distributed EGI Infrastructure. This portal allows individual researchers and small research teams to be productive using EGI without barriers and without unnecessary overhead.

The platform presented during the egi conference will reach production during the summer, adding new capabilities by integrating more portals.

In this session we will present the functionalities of the platform in production the use cases supported, and how resource providers and users can benefit from it.

Primary authors: SCARDACI, Diego (EGI.eu/INFN); SOLAGNA, Peter (EGI.eu); Mr SZEPIENIEC, T. (CYFRONET)

Presenter: SOLAGNA, Peter (EGI.eu)

Session Classification: Long tail of science: tools and services
