- Integration with Argus done (stress tests to be done)
- Better support for multicore environments in progress
- Issues with Glue2 support (not too clear which path should be followed): to be raised at PTB likely
- Some bug fixes still to be finalized

CREAM 1.13 will be part of CREAM CE 1.7, which will be included in EMI-1.

It will include:

- Integration with Argus
- Better support for multicore environments (as requested by the EGEE MPI WG)
- Bug fixes
