

Developing synergies between EGI and ESFRIs using ESIF: the case of France

Friday, 8 April 2016 12:00 (30 minutes)

In France, European Structural and Investment Funds can be used together with state funding within the framework of multi-annual research infrastructure projects at a regional scale. Using the example of the AUDACE project in the Auvergne region, we will show how such local initiatives can build bridges between EGI and ESFRIs.

Presenter: BRETON, Vincent (CNRS)
