EGI TestBed for HBP

Friday, 8 April 2016 10:00 (20 minutes)

This talk will report the activities of the HBP/EGI collaboration from October 2015 to March 2016, the pilot data hosting service run by EGI.eu for the Human Brain Project (HBP) and the technical preparations of moving the service into a production-ready state. The talk also includes potential future directions that the service can take.
