

nectar cloud. The Australian gateway to global reserach

Friday, 8 April 2016 09:00 (30 minutes)

Nectar Cloud is a powerful platform for storing and analysing research data. It allows researchers to share their research outputs, collaborate on research projects, and use infrastructure and compute power to develop research applications, scripts and concepts remotely.

Presenter: MOLONEY, Glenn (UNIMELB)

Session Classification: Open to the World: collaborating e-Infrastructures for borderless research
