

EGEE to EGI Transition Meeting: Middleware

Report of Contributions

Contribution ID: 0

Type: **not specified**

Introductions and Overview of the Technology process in EGI

Thursday, 4 March 2010 09:00 (30 minutes)

Who's who and what are they doing here, and what is their role in the process.

* Overview of the Middleware Unit activities (Ales)

* Middleware Unit: Coordination, Process, Repository, Criteria Definition & Verification, Rollout

* Software Providers: EMI, IGE, EDGI, StratusLab

Presenter: KRENEK, Ales

Session Classification: EGEE to EGI Transition Meeting: Middleware

Contribution ID: 1

Type: **not specified**

Detailed Process Discussions

Thursday, 4 March 2010 11:00 (1h 30m)

How do IBERGrid see the activity working:

- * Requirements needed from the Repository
- * Support needed from the sites
- * Support needed from the software providers

Presenter: DAVID, Mario

Session Classification: Rolling out into Production

Contribution ID: 2

Type: **not specified**

Features Required from the Repository

Thursday, 4 March 2010 13:30 (1h 30m)

The Repository links the various actors in the EGI Middleware process

- * The contribution from the software providers
- * The verification of the releases by the MU
- * The rolling out into production of the software
- * The download of the software by sites
- * The use of the repository as a community driven contribution site (e.g. RESPECT)

The session will start with a presentation from GRNET with their view of the feature set and then expand into a broader discussion.

Presenter: LIABOTIS, Ioannis

Session Classification: Repository

Contribution ID: 3

Type: **not specified**

Managing the Process

Thursday, 4 March 2010 15:30 (1h 30m)

The requirements, specification, monitoring, and verification is executed by the EGI.eu CTO through the MCB and with representatives from various stakeholders. This session will discuss the various stakeholders and how they interact:

- * Middleware Requirements: Coming from the VRCs and the operations staff
- * Prioritisation: Reviewed and agreed with the MCB
- * Specification: Negotiation with the 'customers' of the new functionality and the stakeholders mediated by the MU to define what will be delivered.
- * Commissioning: Reporting to the MCB what will be delivered when and by who to do what!
- * Monitoring: Review of the work of the software provider in delivering commissioned work.
- * Verification: Has the what been delivered as requested?

Presenter: NEWHOUSE, Steven

Session Classification: Managing the Process

Contribution ID: 4

Type: **not specified**

Overview of planned structure and processes within the Software Providers

Thursday, 4 March 2010 09:30 (1 hour)

Presentations on how the software projects expect to work, how they are structured and the potential interaction points with EGI.eu

- * Initiative for Globus in Europe (IGE - Alexander Papaspyrou)
- * European Middleware Initiative (EMI - Alberto Di Meglio)
- * EDGI (Peter Kacsuk)
- * StratusLab (Ioannis Liabotis)

Consider the role of the Deployed Middleware Support Unit within EGI with the software providers.
