

EGI Operations Meeting Oct 10, 2016 - Minutes

Participants

Alessandro Paolini (EGI Foundation)
Cristina Aiftimiei (INFN/NGI_IT)
Dragos Ciobanu-Zabet (NGI_RO)
Emir Imamagic (NGI_HR)
George Ryall (STFC-GOCDB)
Ionut Vasile (NGI_RO)
Jan Astalos (NGI_SK)
Jerome Pansanel (IPHC/NGI_FR)
Joao Pina (NGI_IBERGRID)
Luis Alves (CSC/NGI_FI)
Ruben Diez (CESGA)

Apologies

David Crooks (NGI_UK)

Minutes

- Cristina on canL/gridsite issue: the initial advisory should explicit the services that are affected by the upgrade, in this case WNs were not mentioned explicitly and led to delay and as a consequence, it can be a problem if the site realizes that there is work to be done on the services by 3 days; not sure why 3 days
 - reported back to EGI-CSIRT → <https://wiki.egi.eu/wiki/SEC03> mentions 3 days in the new procedure
- Jerome about UMD4/CentOS7: some WLCG are using the tarball WN -> Vincenzo to investigate if there will be a CentOS7 tarball WN as well
- Cristina about EMI3/Preview joint announcement: take care that after EMI/Preview announcements all the sites using EMI3 won't get more updates!
- Vincenzo about A/R: NGI_MARGI issue needs to be escalated to understand the reasons for very long standing unresponsiveness
https://ggus.eu/index.php?mode=ticket_info&ticket_id=118465
- Ionut about ARGO using GOCDB as topology source: needed more details about how to add a service endpoint to GOCDB (especially fields in GOCDB, as the endpoints themselves can be found using lcg-infosites command)
