

EGI-Engage JRA1.4 ARGO Monitoring

Christos Kanellopoulos - GRNET

www.egi.eu

EGI-Engage is co-funded by the Horizon 2020 Framework Programme
of the European Union under grant number 654142

ARGO Compute Engine & Web API

- API for data ingestion (draft spec / pre-alpha implementation) **DONE**
- Separation of A/R and metric store **IN PROGRESS**
- Support for multiple monitoring engine in active-active setup **DONE**
- *Stability and performance improvements*

ARGO Monitoring Engine

- fedcloud probes update (rOCCI, CA, Swift, VM Catcher) **IN PROGRESS**
- Completion of the Central Monitoring Service **IN PROGRESS**
- *Stability and performance improvements*

ARGO EGI Web UI

- Connect to the EGI IdP/SP Proxy **IN PROGRESS**
- ELIXIR Custom Results **IN PROGRESS**
- *UI Enhancements*

ARGO EGI Connectors & Consumer

- Use of the CE ingestion API **IN PROGRESS**
- *Stability and performance improvements*

ARGO POEM

- Implementation of probe publishing and management service **IN PROGRESS**
- Connect to the EGI IdP/SP Proxy
- *Stability and performance improvements*

Messaging

- API v1 test pre-alfa implementation **DONE**
- API v1 final draft specification **DONE**
- API v1 final specification

ARGO Central Monitoring

- Finalizing packages & documentation for the secondary instance at GRNET
 - DONE
- Deployment of 2 central monitoring instances (GRNET/SRCE)
 - DONE
- **Perform detailed comparison of A/R results between distributed SAM/Nagios and ARGO Central**
 - **March/April**
- Cut over date → ~~June~~ July 1st
- Start decommissioning SAM Nagios(es) ~~Q2~~ Q3 2016

Thank you for your attention.
