For more details : https://operations-portal.egi.eu/home/tasksList/21

VAPOR 2.1

✓ In production since September 13 th

✓ Integration of Gstat features
  - ✓ a map of the resources : http://operations-portal.egi.eu/vapor/resources/GL2Map
  - ✓ a table of the resources : http://operations-portal.egi.eu/vapor/resources/GL2ResSummary
  - ✓ a TopBdii browser : http://operations-portal.egi.eu/vapor/resources/GL2ResBdiiBrowser

✓ New menu
✓ Corrections of different bugs
✓ Integration of feedback
✓ Ergonomics improvements

We have spent a huge time to identify the Glue2 publication exceptions (Thanks Alessandro) to obtain proper figures .There are probably still some improvements to be done on this part .

OPS PORTAL

✓ Refactoring of the dashboards (simplification of the interface, customisation by user , merge of the different dashboards)
✓ Optimization of the scripts (temporary overload of the web cluster)
✓ Optimization of the web services
✓ AAI
✓ Perun integration improvements (puppet)

VAPOR
✓ Complete the API
