- UMD 4.6.0
- ARGUS 1.7.4, dmline 0.8.8, GFAL, FTS3.6.8(C7), CREAM 1.16.5(C7), CVMFS 2.4.1, cvmfs-config 2.0.1 (SL6 fix), VOMS-ADMIN server 3.7.0 (SL6)
- in progress: dCache, gridsite 2.3.4, ARC 15.03.7
- **UI for C7 under verification, then we can release**

- To be dismissed in early 2018 (after WMS decommissioning)
- umd-release package to be tested against moving from UMD3/SL6 to UMD4/SL6
- Agreement in URT meeting TBD
- Then a broadcast will follow

- Difficulties with getting Staged-Rollout reports for some products
- CMD-OS:
cloud-info-provider 0.8.4, cloudkeeper-os 0.9.4, cloudkeeper 1.5.1, OOI 1.2.0
- CMD-ONE:
cloud-info-provider 0.8.4 , cloudkeeper 1.5.1, cloudkeeper-one 1.2.5
- In January: discuss the future of CMD-OS
 - use of docker
 - addressing dependency of CMD from OpenStack version: FedCloud integration components for OpenStack are now *independent from the OpenStack version* (they rely on OpenStack public API)

Thank you for your attention.
