An easier path? customizing a "Global Solution"

Wednesday, 10 May 2017 16:45 (15 minutes)

In this session we will show how a "global template" using different components can be adapted to provide a customized solution for a given use case.

The "pros" and "contras" of the approach will be discussed.

Presenters: AGUILAR, Fernando (CSIC); Dr DONVITO, Giacinto (INFN)

Session Classification: EGI-INDIGO workshop on community application support
