# Operations Portal

Cyril L'Orphelin, IN2P3

[www.egi.eu](http://www.egi.eu)

EGI-Engage is co-funded by the Horizon 2020 Framework Programme of the European Union under grant number 654142

- Release v2.2 on-line since March 16th
- New map
  - with the geographical distribution of the sites and details about a site .
  - with a VO Filter
  - with a search option applicable on the map
- Removal of duplicated publications
- Different structure of information (split of storage / CPU information )
- Faulty publication : Job Monitoring / HEPSPROC information

We see still some incoherences in the publications . Alessandro will point it .

We will provide a light release to try to solve a maximum of these use cases.

- Version 4.2 : still on-going
  - integration of complementary metrics for the VO : information about accounting data and AppDB changes
  - improvements on the Vo ID Card
  - Backend for the monitoring
    - i. exploration of logs (apache , symfony, access)
    - ii. Status of the Lavoisier servers and views
    - iii. Status of some tables of the DB
  - Minor fixes / bugs
  - Ready but not in production due to a lack of manpower

- AAI
  - add SAML support on the 3 web repositories
    - i. Dedicated bundle in Symfony
  - Connect to EGI Idp and retrieve attributes
  - Use GOC DB attributes directly
- Migration to Argo Messaging System (almost achieved)
