

# 16<sup>th</sup> DARIAH CC teleconference meeting

## MINUTES

27<sup>th</sup> June 2017

Meeting's chair: Davor Davidović (ddavid@irb.hr)

Meeting agenda and presentation materials:

<https://indico.eji.eu/indico/event/3390/>

Participants:

- Giuseppe la Roca
- Gergely Sipos
- Zoltan Farkas
- Rene van Horik
- Eveline Wandl-Vogt
- Davor Davidovic

Agenda:

1. Status of the CC
2. Technical issues
3. Dissemination actions

Technical issues

- Still problem with logging in to the DARIAH SG using Netherlands EduGain IdP credentials
  - ACTION: Rene will check contact person from SURFnet (Netherland IdP provider), Zoltan will check in log files what is the cause of the problem. Rene (or someone from SURFnet) and Zoltan will keep in contact to solve the login problem
- Davor would like to improve the visual appearance of the DARIAH SG
  - Giuseppe will send him a contact person from INFN having experience in installing and customizing Liferay themes
- Text and descriptions on the DARIAH SG should be updated and re-written
  - ACTION: Davor will do this

## Dissemination actions

- All events on which DARIAH CC outcomes are presented should be reported on the wiki pages: <https://wiki.egi.eu/wiki/EGI-Engage:Dissemination> (IMPORTANT – this will be included into the project's final report!)
- Gergely reported on two upcoming reports – periodic reports (for the M13 – M30 of the project) and the final project report
- Gergely explained which statistics are required for the final reports for DARIAH CC:
  - **Non-authenticated usage:** From the Gateway logs collect stats about visits and also about the list of keywords that users searched for in the Semantic Search Engines (sequential and parallel). This will help to understand the interest of the users, and also check whether the visits were by real users, or robots)
    - **ACTION:** Zoltan will provide logs, Davor will analyze them
  - **Authenticated users:** Collect stats from Zoltan who can logs into the user account DB and also under each account to see what the users did (e.g. do they have workflows?)
    - **ACTION:** Zoltan will provide logs, Davor will analyze them and directly contact registered user and collect their feedback
- We need further (direct) engagement with users:
  - Contact directly those people who had authenticated access in the gateway. Interview them about what they used the service for and what's their feedback.
    - **ACTION:** Davor
  - DARIAH has new members from Hungary: CEU, ELTE. Find out the personal contacts, and talk to them about what they do and introduce the gateway if it's relevant for them: [http://www.dariah.eu/news/dariah-news/details.html?tx\\_news\\_pi1%5Bnews%5D=446&tx\\_news\\_pi1%5Bcontroller%5D=News&tx\\_news\\_pi1%5Baction%5D=detail&cHash=0fc5606f9691c09f4f4165896490eebe](http://www.dariah.eu/news/dariah-news/details.html?tx_news_pi1%5Bnews%5D=446&tx_news_pi1%5Bcontroller%5D=News&tx_news_pi1%5Baction%5D=detail&cHash=0fc5606f9691c09f4f4165896490eebe)
    - **ACTION:** Zoltan, Peter
  - Contact and talk to DARIAH WGs directly about adoption of the gateway services
    - **ACTION:** Davor, Eveline
- By the end of the project partners should organize one workshop/demonstration for local DARIAH / DH communities demonstrating the DARIAH CC outcomes
  - First such workshop will be organized in Zagreb, on July 12, 2017 (RBI – Davor)
    - The program is defined, working on presentations and specific use-cases
    - A simple use-case which collects all books from the Gutenberg project for a given author and performs words statistics
    - **ACTION:** Davor will send the Gutenberg use-case to Eveline and Rene for further

### dissemination/showcase

- The next one will be in Vienna, on July 24, 2017 (AAS – Eveline)
- ACTION: Davor and Eveline will work together to setup a few DH specific use-cases and demonstrators for the workshops
- Davor asked all partners to prepare a short video presenting their service(s)
  - The video should be 5' long and should give a short intro to a specific services, its applications and how to use it (simple manual)
  - Possible distribution channels: DARIAH Wiki, twitter, official youtube channels
- Prepare a short news on the DARIAH Science Gateway for DARIAH Newsletter
  - ACTION: Davor will prepare a text and send to all partners for correction/approval
