

## The challenges and opportunities of OpenMinTeD: a legal perspective

*Friday, 1 December 2017 14:20 (5 minutes)*

Text and Data Mining represents the future of research in many ways. Yet, it is surrounded by a world of legal barriers, from copyright law to licensing agreements, that impede its full development. OpenMinTeD aims at overcoming such barriers and helping researchers achieve the highest potential of TDM.

**Presenter:** DORE, Giulia (CREATe)

**Session Classification:** Text and data mining for open science
