

# **EGI-CSIRT Face2Face meeting in Helsinki**

## **Report of Contributions**

Contribution ID: 0

Type: **not specified**

## **Intro / Logistitcs / Agenda**

*Thursday, 16 November 2017 09:00 (30 minutes)*

**Presenter:** Dr GABRIEL, Sven (NIKHEF)

**Session Classification:** Intro/Agenda/Summary last F2F/Intro EUDAT Security EGI-CSIRT

Contribution ID: 1

Type: **not specified**

## **GoeGrid Issues / How to Contact Users**

Clarify procedures (VOs, AAI check-in, robots)

Discussion, identify possible policy violations of the users/VO, escalate to Management via OMB

**Presenter:** BRILLAULT, Vincent (CERN)

Contribution ID: 2

Type: **not specified**

## VM image handing in IR

Concept to use syncthing to share VM images, what is needed at the sites, what at irtf. POC, then ask OMB for approval/support

**Presenter:** Mr DUSSA, Tobias (KIT-CERT)

Contribution ID: 3

Type: **not specified**

## Handover discussion

Questions that I see are:

- Monitoring: How to make sure that Operations people are allowed to see the relevant info.
- Is the info there distinct enough so that they don't trap into false positives/mitigations/etc, what do we need to do in terms of training/documentation?
  - Ticket creation still be done by us (Massticket Magic)
  - Low level tech communications (Advisories etc) should be done by us. In addition we may need to provide support (on Duty dude has to provide this)

For now we can assume that we use our tools, no need to move to ggus atm.

Peter will be available/dial in on Friday (mainly for the FedCloud Sec stuff) perhaps we can through this at him as well, and get to a point where we can present this at OMB and ask for approval.

Can you guys collect/present the needed info so that we can discuss it. Only very brief, likely we can re-use some of the Prague stuff we had back then.

Security Monitoring may need some more love here.
