Agenda

- Title and abstract EUDAT2018 conference Porto
- Input Deliverable 7.4
- Status update

Present

Michaela Barth
Christian Pagé
Xavier Pivan

Information

- https://eudat.eu/eudat-conference-2018-registration-form
  - Short Welcome and Overview (Michaela Barth) 10 mins
  - EGI OneData demo (Matthew Viljoen) 15 mins
  - ICOS use case demo (Margareta Hellström) 30 min
  - ENES use case demo (Xavier Pivan) 30min
- Ideas for how to structure the EUDAT2018 contribution:
  - explain GEF
  - very interactive
  - Test live demo previously at home with worse network (just wifi)
- Switching to myProxy security wise important, but not realistic to test before EUDAT2018
- Problems with B2ACCESS seem to be all solved
- Screenshot shows submitted jobs; long run time: without EGI resources
- After hanging GEF backend API, could add a new section at the frontend, but user might not have all the options

Open Actions

- AP Ute, Xavier and EPOS: fill out AARC questionnaire once it is out. Michaela is in contact with the person doing this, it is still not sent out. Michaela should chase this up.
- AP Xavier go through ENES section in pilot study chapter this afternoon
- AP Xavier to send another email to Giovanni
- AP Xavier to update pictures in D7.4
