

# WP2 Meeting: 2018-02-01

Present: [Marjut Andler](#), [Sergio Andreozzi](#), [Rob Baxter](#)

Apols: Magchiel Bijsterbosch

## Minutes of the previous meeting

- Notes by Sergio from the Kick-off in Amsterdam.
- No changes; notes transposed [here](#) by Rob.

## Actions (new and ongoing)

- **RobB**: contact other task partners and arrange mailing lists etc.
- **Marjut**: Doodle for regular slot timed shortly before AMB.

## WP2 general report

- Marjut collected startup emails into single PPT file for context.

## Task Leader reports

### Task 2.1 (Marjut)

- General gearing up and assimilation of pre-kickoff and kickoff content.
- Arranging first AMB reports.

### Task 2.2 (Sergio)

- Call with CINES to establish contacts on service management.
- Noted that EOSC-hub needs a first-version Service Catalogue v soon to be available for upcoming H2020 calls.
- There is [a skeleton of all current EOSC-hub services](#), but needs detail.
- For e-infrastructure partner services (EGI, EUDAT), can/should point to the [eInfraCentral catalogue](#) too.

### Task 2.3 (Magchiel)

- No Magchiel.

### Task 2.4 (Rob)

- Slow start, but useful overlap with [policy session](#) co-chaired by Rob at EUDAT2020 Conference last week (Porto).
- Initial planning only for overall scope of task, given that cross-border data sharing of personal data (at least) is going to be v hard (default impossible) under GDPR
  - explore possible scenarios for what data could be shared (data-to-researcher), what services could be accessed remotely (researcher-to-data) and what practical policy tools (e.g. DataTags) could be adopted across EOSC-hub data layers.
- Main activities for Feb/Mar will be collecting resources, reading lists etc.
- **ACTION** - Rob: contact other task partners and arrange mailing lists etc.

## AOB

- Change of M2.1. ownership from EGI Foundation to CSC; Sergio has requested this with PMO.
- EGI-EUDAT service integration meeting being scheduled– initiative by Matthew Viljoen /WP4, EGI; looking like a bigger meeting, lots of interest.
- EOSC-Hub contribution to RDA requested
- OpenAire collaboration

- WP2 bi-weekly meetings / frequency & timing
- A F2F WP2 meeting in connection with the Strategy workshop?
- Collection of links, tools, mailing lists...
  - Agreed (earlier) that [wiki.eosc-hub.eu](http://wiki.eosc-hub.eu) is the definite repository for information.

## DoNM

- **ACTION** - Marjut: Doodle for regular slot timed shortly before AMB.
