April 2018

Quick overview

- NGI & French Research Infrastructure & Scientific Interest Group:
- Grid & Federation of IaaS Clouds
 - catalog of services (FG-DIRAC, FG-cloud, FG-iRODS...)
- Users (all disciplines):
 - 750 « national » users
 - about 100 VOs
 - whose 25 national or local
 - 1 VO (all disciplines and long tail oriented)
 - 1 VO (training)

NIL related activities: relationship with user communities

- User support at large
- Training
 - for users : DIRAC, iRODS, cloud (OpenStack R , Openstack, Kubernetes...)
 - Training for students in their academic cursus
- Support toward international level (EGI...)
 - budget for travels (EGI, iRODS, DIRAC or other related conferences)
 - support for project proposals

Succes Days: our scientific days, by users for users

- Since 2011, the best way to
 - meet our users,
 - present their success stories (including EGI),
 - foster expertise and experience sharing,
 - collaborate with sisters national e-infrastructures and their users (HTC, HPC, cloud, storage),
 - webcasted talks, panels and demonstrations, posters.
 - <https://succes2017.sciencesconf.org/> (FR speaking)
- JCAD 2018 in preparation with more sisters entities!
